

WEBVTT

53

00:16:56.670 --> 00:16:58.530

Kathryn Wheeler: Good afternoon.

54

00:16:59.610 --> 00:17:06.660

Kathryn Wheeler: My name is Catherine Wheeler and today I'm going to be talking about keep reporting.

55

00:17:08.610 --> 00:17:32.700

Kathryn Wheeler: I have quite a few slides to get through, so I would appreciate it if you could hold your answer your questions for the end or if you would like to enter your questions in the chat, please feel free to do that. I have muted all participants, just to avoid any

56

00:17:32.940 --> 00:17:34.920

Kathryn Wheeler: Additional background noise.

57

00:17:36.900 --> 00:17:40.440

Kathryn Wheeler: So we'll get started. So keep reporting.

58

00:17:47.580 --> 00:17:55.680

Kathryn Wheeler: What are the two things that are reported the two main things are Cape Academy enrollment for both middle school and high school

59

00:17:56.100 --> 00:18:08.400

Kathryn Wheeler: And course performance data for Industry Certifications, and other assessments and that includes attempts certifications earned and keep innovation course outcomes.

60

00:18:09.540 --> 00:18:30.420

Kathryn Wheeler: So today I'm going to talk about some coven updates reporting requirements and resources data reporting overview FP FP funding issues important data reports and we'll talk about why wasn't a certification funded

61

00:18:31.950 --> 00:18:46.440

Kathryn Wheeler: So I'll start out with the covert updates. So typically, our rule for industry certification process requires for Industry Certification Exams.

62

00:18:47.220 --> 00:19:04.290

Kathryn Wheeler: To not be limited, any more than three times per academic year, and there must be a minimum of 25 calendar days between the exam administration's this requirement has been waived for exam administration's associated with

63

00:19:05.820 --> 00:19:15.900

Kathryn Wheeler: Enrollment now all other tests administration procedures must be followed, including any retesting requirements that the certifying agency has

64

00:19:16.350 --> 00:19:32.430

Kathryn Wheeler: So while Florida said, you know, you have to have 20 days between exam administration's a certifying agency may have required 10 days or 24 hours you're still required to follow their retesting policies.

65

00:19:34.770 --> 00:19:44.280

Kathryn Wheeler: We do have a number of Industry Certifications that will be reported for the 1920 school year.

66

00:19:45.360 --> 00:19:48.150

Kathryn Wheeler: Through which at home testing.

67

00:19:51.000 --> 00:20:02.430

Kathryn Wheeler: Has taken place, the Florida Department of Education has allowed for certifications to be tested in this manner if they meet

68

00:20:03.150 --> 00:20:11.880

Kathryn Wheeler: certain criteria, and that includes you know it has to be the same credential that would have been earned in the traditional proc during setting.

69

00:20:12.270 --> 00:20:18.840

Kathryn Wheeler: The certifying agency has to have processes that ensure confirmation of student test takers identity.

70

00:20:19.290 --> 00:20:30.780

Kathryn Wheeler: They have to ensure electronic versions of the exam are delivered security securely. Excuse me. We have to monitor the test administration remotely through virtual proctor

71

00:20:31.200 --> 00:20:44.010

Kathryn Wheeler: And they have to have a method of implementing a process for identifying testing irregularities, so we have reached out to all the certifying agencies for exams on our list.

72

00:20:44.760 --> 00:21:06.090

Kathryn Wheeler: And we have come up with a list of exams that could be taken that way. And we do have a link here on this slide that will take you to that list. We do have some Industry Certifications that do not have a remote testing option in place and

73

00:21:07.170 --> 00:21:26.760

Kathryn Wheeler: You know, there, there are three overall for this school year. There are three main ways that Industry Certifications could have been taken and, you know, the first is, if there is an at home testing capability we recommend going through that option.

74

00:21:28.170 --> 00:21:39.480

Kathryn Wheeler: That there is an option to at the district level allow for small group testing or to wait until

75

00:21:41.430 --> 00:21:45.300

Kathryn Wheeler: Campuses reopen in the fall and test, then

76

00:21:58.170 --> 00:21:59.400

Kathryn Wheeler: So, for

77

00:22:01.440 --> 00:22:20.100

Kathryn Wheeler: Reporting we do plan on having a new data element to reflect the location of testing. However, this is still under development and pending. So it's not something that will have to worry about collecting information on for 1920 but definitely something

78

00:22:21.480 --> 00:22:24.000

Kathryn Wheeler: That we hope to have for 2021

79

00:22:26.850 --> 00:22:35.220

Kathryn Wheeler: Now let's talk about reporting requirements and resources for the industry certification format, there's been

80

00:22:36.300 --> 00:22:48.240

Kathryn Wheeler: Quite a lot of information that is collected here that includes the school district in school numbers student identifiers survey period code grade level school year course number

81

00:22:49.980 --> 00:22:53.760

Kathryn Wheeler: CT or a G program code.

82

00:22:55.320 --> 00:23:07.530

Kathryn Wheeler: The tape Academy identifier. The industry certification identifier Industry Certification outcome, the date earned dual enrollment institution type

83

00:23:11.670 --> 00:23:29.520

Kathryn Wheeler: For the federal and state indicator status. There are two elements that you can have the cape Academy identifier, like the first primary one and a second Academy identifier.

84

00:23:31.170 --> 00:23:53.220

Kathryn Wheeler: There are three main dependencies for reporting and this includes appendix z, which has all the different Industry Certifications, there is a unique eight digit code for each Industry Certification there's appendix y which is all the

85

00:23:54.540 --> 00:24:07.650

Kathryn Wheeler: Academy's Cape academies for middle school and high school and then there's appendix ff, which is all of the career themed courses and every single industry certification.

86

00:24:08.580 --> 00:24:21.900

Kathryn Wheeler: To be offered through those career themed courses. This is what is used for FP FP funding eligibility calculations various very important that

87

00:24:22.470 --> 00:24:43.050

Kathryn Wheeler: Career themed courses are registered and the course and the specific certification to be earned in that course is registered and it is on appendix FF so that bonus FF P funding can be earned.

88

00:24:46.350 --> 00:24:59.580

Kathryn Wheeler: So appendix Z Industry Certification identifier has a number of fields. There's the industry certification identifier. The title the CERT agency name.

89

00:25:00.960 --> 00:25:05.730

Kathryn Wheeler: school grades eligibility Perkins TSA eligibility.

90

00:25:07.410 --> 00:25:22.230

Kathryn Wheeler: There's the type of tape credential. The one is if it's a regular industry certification. The two if it's an acceleration Industry Certification and the three for a digital tools certificate

91

00:25:23.430 --> 00:25:39.150

Kathryn Wheeler: There's differentiated waiver of certification requirements. There is the funding wait for FPS P calculation and typically this appendix is updated throughout the year, we should have the

92

00:25:40.890 --> 00:25:43.560

Kathryn Wheeler: Appendix Z available all

93

00:25:45.150 --> 00:25:54.480

Kathryn Wheeler: Appendix. Why is your cape Academy's appendix has the middle school and high school academies registered by school districts

94

00:25:54.840 --> 00:26:10.290

Kathryn Wheeler: It's got the district number and name the school number and name the academy identifier, the career and professional Academy name Academy level and an indicator. If this is a new Academy and the current school year.

95

00:26:15.630 --> 00:26:31.140

Kathryn Wheeler: Appendix FF the registered career themed courses. This shows courses that were registered by the school district during the open submission windows. There's three windows per year, during which districts may

96

00:26:32.400 --> 00:26:42.660

Kathryn Wheeler: Make these registrations a career themed courses a course or a course in a series of courses that leads to an industry certification on the cape list.

97

00:26:43.530 --> 00:26:52.470

Kathryn Wheeler: Of certifications earned in these courses may be eligible for additional f t calculation and the FP FP and

98

00:26:53.310 --> 00:27:10.650

Kathryn Wheeler: This appendix includes the district number and name school number and name the course number and name an indicator. If it's a dual enrollment course number and all certifications to be earned in that particular career themed course.

99

00:27:14.130 --> 00:27:16.590

Kathryn Wheeler: Now for a data reporting overview

100

00:27:20.910 --> 00:27:21.570

Kathryn Wheeler: So this is

101

00:27:22.800 --> 00:27:27.300

Kathryn Wheeler: A chart of our standard data reporting cycle.

102

00:27:28.500 --> 00:27:47.370

Kathryn Wheeler: Survey to happens in October. October and during that time you'll report career and professional Academy identifier on the federal state indicators status format survey three happens in February and during that time you report.

103

00:27:48.540 --> 00:28:05.250

Kathryn Wheeler: The career and professional identity Academy identifier on that federal state indicator status format survey five is July through October and during this time you report.

104

00:28:06.660 --> 00:28:14.970

Kathryn Wheeler: Your Cape Academy identifier on both the federal state indicator status and industry certification.

105

00:28:17.310 --> 00:28:35.610

Kathryn Wheeler: You report Industry Certifications or certificates earned and attempted on the industry certification format that's the industry certification identifier and the industry certification outcome and report all student performance on Cape innovation courses.

106

00:28:39.300 --> 00:28:59.970

Kathryn Wheeler: So this chart outlines what grades grade levels are eligible for the different types of certificates or certifications on the cape list and the associated funding weight digital tools certificates are only for students in K through eight. It's a point 025 f t

107

00:29:01.110 --> 00:29:12.510

Kathryn Wheeler: Industry Certifications are for students six through 12th grade funding weight of point one or point to an acceleration Industry Certifications

108

00:29:13.560 --> 00:29:29.370

Kathryn Wheeler: For students in six to 12 and those are weighted at point five or 1.0. Now, it's important to know that the funding waits for it. Industry Certifications have to do with the

109

00:29:29.820 --> 00:29:49.080

Kathryn Wheeler: Credit college credit that is articulated from statewide articulation agreements, it doesn't necessarily have anything to do with the rigor of the certification has everything to do with articulation agreements and another important thing to note is that

110

00:29:50.550 --> 00:30:00.750

Kathryn Wheeler: Middle School students, students in grades K through eight are capped at 0.1 bonus f t per school year.

111

00:30:02.370 --> 00:30:06.930

Kathryn Wheeler: But the students can earn as many certifications as possible.

112

00:30:10.680 --> 00:30:24.060

Kathryn Wheeler: So what is reported on the industry certification format the outcomes for all Cape certifications and digital tools certificates, the outcomes for Cape innovation courses and any other TSA

113

00:30:25.080 --> 00:30:30.000

Kathryn Wheeler: Assessment for Perkins accountability measures that's on the appendix z.

114

00:30:32.670 --> 00:30:35.370

Kathryn Wheeler: Keep course reporting requirements.

115

00:30:36.630 --> 00:30:39.270

Kathryn Wheeler: For Cape Digital Tool certificates.

116

00:30:40.620 --> 00:30:54.000

Kathryn Wheeler: You're not required to report with a course number, but you may, if you don't, you would enter halls euros and then for Cape Industry Certifications and accelerate

117

00:30:54.570 --> 00:31:12.000

Kathryn Wheeler: Keep acceleration Industry Certifications, you must enter a valid course number. Now, if it's a CT course or an adult general education course. You must report a program code as well.

118

00:31:18.000 --> 00:31:33.930

Kathryn Wheeler: And if this is going to be eligible for bonus FF P funding the course number and the industry certification reported must match the course number and the certification on appendix FF

119

00:31:36.690 --> 00:31:54.450

Kathryn Wheeler: And for secondary courses, the school number must also match. So make sure that you know when you have for whatever career themed courses you have registered that each school has all their courses and all the certifications registered

120

00:31:57.630 --> 00:32:07.440

Kathryn Wheeler: A special note about reporting dual enrollment courses on the industry certification format report only if a certification was attempted and the course.

121

00:32:07.830 --> 00:32:18.330

Kathryn Wheeler: This format cannot be used to report post secondary dual enrollment course information for students who did not attempt an industry certification.

122

00:32:19.140 --> 00:32:30.780

Kathryn Wheeler: Dual Enrollment students may be funded and the FP FP under certain circumstances, the certification cannot be fundable and another post secondary procreation.

123

00:32:35.520 --> 00:32:48.360

Kathryn Wheeler: Element for identifying dual enrollment funding eligibility dual enrollment institution type this element is used to determine whether a certification earned through dual enrollment is fundable.

124

00:32:48.960 --> 00:32:57.210

Kathryn Wheeler: Districts will identify the type of post secondary Industry Certification with which the dual enrollment occurred. It could be a district.

125

00:32:58.620 --> 00:33:10.830

Kathryn Wheeler: Technical College or center. An FCS institution, a non public post secondary institutions such as Embry riddle, or a State University.

126

00:33:14.040 --> 00:33:34.080

Kathryn Wheeler: reporting outcomes. The data element is Industry Certification outcome. The final student outcome should be reported for an industry certification. So if a student took the certification more than once in a recording year only the outcome of the final attempt should be recorded.

127

00:33:35.910 --> 00:33:45.240

Kathryn Wheeler: The codes for Industry Certifications and tape Digital Tool certificates are P for pass or fail. Pretty simple.

128

00:33:46.980 --> 00:33:59.220

Kathryn Wheeler: Now this one's a little bit more complicated. This is for the cape acceleration Industry Certifications if you see a cert code that's Cape I 001 that is

129

00:34:00.480 --> 00:34:03.300

Kathryn Wheeler: An acceleration a cape.

130

00:34:04.590 --> 00:34:13.560

Kathryn Wheeler: Acceleration industry certification. There are very few districts that report these it's something that's kind of being phased out.

131

00:34:15.060 --> 00:34:20.550

Kathryn Wheeler: That we don't anticipate being supported for several years into the future.

132

00:34:22.260 --> 00:34:24.240

Kathryn Wheeler: But if a student

133

00:34:25.590 --> 00:34:38.460

Kathryn Wheeler: Is involved with these districts must report on all outcomes, even if the student did not take the AP assessment or the industry certification assessment and you can only

134

00:34:39.600 --> 00:34:42.210

Kathryn Wheeler: Report a p of all

135

00:34:43.560 --> 00:35:05.700

Kathryn Wheeler: Assessments we're past that includes the AP assessment and the industry certification. Now if you're one of the districts that that does record this particular certification code. This is a chart that summarizes all the different kinds of codes that you would have to report with those

136

00:35:09.030 --> 00:35:15.330

Kathryn Wheeler: So when to report an outcome certifications are reported in the year that they were earned

137

00:35:15.810 --> 00:35:25.920

Kathryn Wheeler: Reporting linked to a prior year course is allowed for certain certifications and that would include those for which there's a gap between when the student completes the course.

138

00:35:26.310 --> 00:35:41.880

Kathryn Wheeler: And when they can set for the industry certification exam districts can report prior year using the following elements so school year records mission element equals current reporting year

139

00:35:42.870 --> 00:35:56.040

Kathryn Wheeler: And school year course taken element equals prior year and this year will be eliminating the prior year reporting to certain certification codes.

140

00:35:58.590 --> 00:36:00.180

Kathryn Wheeler: So starting

141

00:36:01.440 --> 00:36:22.230

Kathryn Wheeler: In 1819 we required an industry certification earn date. You can view the data element through this link if a certification requires multiple exams taken on different dates the date earned is based on that last date.

142

00:36:23.700 --> 00:36:28.050

Kathryn Wheeler: That resulted in all of those exams being passed.

143

00:36:29.070 --> 00:36:33.870

Kathryn Wheeler: And the award of that credential being met.

144

00:36:36.090 --> 00:36:39.630

Kathryn Wheeler: So reporting outcomes. And when work experiences required

145

00:36:40.650 --> 00:36:51.690

Kathryn Wheeler: An industry certification identify or maybe reported as an attempt. When all exams have been taken and any requirements, other than work experience or satisfied.

146

00:36:53.910 --> 00:37:14.880

Kathryn Wheeler: So report valid identifier on industry certification identifier element and outcome of F on the industry certification outcome element, students should not be reported with an F for two consecutive years. If the only certification requirement outstanding is that work experience.

147

00:37:17.490 --> 00:37:23.340

Kathryn Wheeler: special note about Cape digital tools certificates prior year reporting is not allowed for these

148

00:37:26.130 --> 00:37:40.530

Kathryn Wheeler: Students who earn additional FT membership for a cape digital tools certificate may not use the previously funded examination to satisfy requirements for earning keep Industry Certification so

149

00:37:41.010 --> 00:38:02.970

Kathryn Wheeler: For example, starting this year we have Microsoft Office specialist PowerPoint on as a digital tool that is also a requirement for the micro 069 bundle or the micro 017 bundle that particular that Digital Tool certificate cannot be used

150

00:38:04.110 --> 00:38:06.450

Kathryn Wheeler: towards the achievement of another.

151

00:38:07.650 --> 00:38:11.580

Kathryn Wheeler: Company industry certification. You can be funded twice, basically.

152

00:38:13.860 --> 00:38:16.650

Kathryn Wheeler: So FP FP funding issues.

153

00:38:19.170 --> 00:38:31.680

Kathryn Wheeler: The SP SP calculation includes additional f t membership for certifications and certificates earned on the cape list or for Cape innovation courses.

154

00:38:32.550 --> 00:38:48.810

Kathryn Wheeler: You Can See Appendix z for information on which cert codes are eligible for FP FP funding or you could also look at the Cape Industry Certification funding less basically everything on there is eligible for FP FP funding.

155

00:38:50.100 --> 00:38:56.430

Kathryn Wheeler: And the calculation is completed by the Department of Education based on reporting data elements.

156

00:39:00.150 --> 00:39:19.530

Kathryn Wheeler: Allocation and expenditure requirements for funds received from this calculation. Each district must allocate at least 80% of the funds to the program that generated those funds and this allocation may not be used to supplant funds provided for basic operation of the program.

157

00:39:22.320 --> 00:39:37.920

Kathryn Wheeler: Districts are required to pay teacher bonuses for each teacher who provided direct instruction towards the attainment of that industry certification and the bonuses are awarded the following year.

158

00:39:38.910 --> 00:39:48.630

Kathryn Wheeler: So if a student earns a certification in 1920 that teacher is to be paid their bonus in

159

00:39:50.850 --> 00:40:02.580

Kathryn Wheeler: And it is up to the district to the Herman which teachers qualify for that bonus under the statute and the bonuses are not prorated if

160

00:40:05.070 --> 00:40:14.340

Kathryn Wheeler: Two different teachers contribute to a student earning a point to industry certification than both of those teachers.

161

00:40:15.930 --> 00:40:18.840

Kathryn Wheeler: Should be paid the \$50 bonus

162

00:40:20.040 --> 00:40:31.950

Kathryn Wheeler: And here's a table showing the required bonuses based on the weight of the industry certification. There is no cap on teacher bonuses.

163

00:40:38.280 --> 00:40:43.320

Kathryn Wheeler: Teacher bonus information has to be recorded in the staff Information System.

164

00:40:46.890 --> 00:40:55.350

Kathryn Wheeler: Additional compensation type element code for its recorded on surveys, two, and three for scheduled bonuses.

165

00:40:55.980 --> 00:41:17.700

Kathryn Wheeler: Additional compensation type value element code for followed by seven digit bonus figure which includes two decimal places. So if a teacher is owed a bonus of \$450 that equates to 40045000

166

00:41:20.970 --> 00:41:29.880

Kathryn Wheeler: So tested administration procedures. I didn't talk about it before a little bit. If you're interested in seeing all of the

167

00:41:32.220 --> 00:41:43.590

Kathryn Wheeler: Rules for industry certification process. I have provided a link here. I'm in order to report Industry Certifications earned

168

00:41:45.180 --> 00:41:47.520

Kathryn Wheeler: They must be administered

169

00:41:49.290 --> 00:41:56.010

Kathryn Wheeler: Following this rule. Some examples of typical requirements include that, you know,

170

00:41:56.460 --> 00:42:04.680

Kathryn Wheeler: Exams can't be administered more than three times during the academic year, and there has to be at least 20 days between test administration's

171

00:42:04.980 --> 00:42:20.460

Kathryn Wheeler: You know, though, that for the 1920 school year that has been waived. However, all other parts of that rule are still in place. So, for example, a teacher must

172

00:42:21.330 --> 00:42:32.190

Kathryn Wheeler: Hold the industry certification that the student is earning and the career themed course, things like that, everything else is still in place with that rule and

173

00:42:33.870 --> 00:42:37.260

Kathryn Wheeler: Typically in a non co video where

174

00:42:38.580 --> 00:42:59.460

Kathryn Wheeler: You would still need to reach follow these requirements for about the three times in the 20 days in between. But that has been waived or any certification reported with for 1920 so on to important data reports.

175

00:43:05.400 --> 00:43:24.480

Kathryn Wheeler: So some student level reports created with FP FP calculations, we have the F 71297 and that includes your district of instruction survey numbers School of instructions student ID students

176

00:43:25.350 --> 00:43:34.650

Kathryn Wheeler: First and Last Name the CERT ID, the year earned their grade course number funding wait district prorated f t

177

00:43:36.240 --> 00:43:38.700

Kathryn Wheeler: This is very important.

178

00:43:39.900 --> 00:43:43.770

Kathryn Wheeler: Kept f t and pro rated f t value.

179

00:43:48.660 --> 00:43:49.920

Kathryn Wheeler: So beginning in

180

00:43:52.350 --> 00:43:56.340

Kathryn Wheeler: There were some amendments to the F7 1297

181

00:43:57.060 --> 00:44:16.740

Kathryn Wheeler: You may already be aware of these, we have the district prorated f t. And that is an indicator. If the student was subject to a preparation, because the same certification was recording reported for funding and more than one district. In the same year, so

182

00:44:18.120 --> 00:44:48.240

Kathryn Wheeler: One is indicated when reported by just one district to two. If it's by two districts and three or more, and so on and so forth. Um, there's also a capped f t and that's for if a student in grades K through eight is subject to the cap of point one f t, y is for us. And as for know

183

00:44:49.500 --> 00:44:58.440

Kathryn Wheeler: All nine through 12 records will automatically be no, because a student in ninth through 12th grade is subject to that cap.

184

00:45:00.630 --> 00:45:06.420

Kathryn Wheeler: And this would only apply if a student within a grade lower than ninth grade.

185

00:45:08.880 --> 00:45:25.380

Kathryn Wheeler: A pro rated f t value is indicated. If the student level funding comp was applied. So if you have a why for capital F t, then you'll see a value in that prorated f t

186

00:45:26.670 --> 00:45:35.160

Kathryn Wheeler: And it's calculated by multiplying the estimated proportionate share of funding we by point one f t

187

00:45:42.240 --> 00:45:50.760

Kathryn Wheeler: So someone did ask if there was legislation to remove the cap to not pass. We had put it in our

188

00:45:52.620 --> 00:45:59.400

Kathryn Wheeler: Legislative request from the Department of Education. However, it did not make it through.

189

00:46:00.810 --> 00:46:09.210

Kathryn Wheeler: This year, so the the cap does remain in place, unfortunately, that's something hopefully will

190

00:46:10.470 --> 00:46:12.120

Kathryn Wheeler: Be removed in the future.

191

00:46:21.390 --> 00:46:35.880

Kathryn Wheeler: Okay, so that F 714 15 is an on demand report, it has the same programming as the F 71297 you must have reported data on the industry sort of certification format before you can run this report.

192

00:46:37.890 --> 00:46:51.510

Kathryn Wheeler: Now this the following couple slides are have a cape data reports handout that I also provided and should be available through the famous conference save

193

00:46:52.950 --> 00:46:58.260

Kathryn Wheeler: But it's just summarizes all the different Cape data reports that we have

194

00:47:03.810 --> 00:47:19.290

Kathryn Wheeler: So, very important. Why wasn't this funded. There are six main reasons why certifications don't get funded. Number one, the industry certification record is created locally, but not sent the do e

195

00:47:19.950 --> 00:47:27.480

Kathryn Wheeler: To the industry certification record received reject errors, causing the record, not to load the FDA only

196

00:47:28.500 --> 00:47:36.360

Kathryn Wheeler: Three Industry Certification outcome on the industry certification record does not have a passing outcome.

197

00:47:38.040 --> 00:47:46.920

Kathryn Wheeler: For Industry Certification identifier on the industry certification record has an identifier that is not funding eligible

198

00:47:48.450 --> 00:47:59.670

Kathryn Wheeler: Five. The industry certification record does not match the district's registered career themed course registration, this doesn't apply to digital tools certificates, by the way.

199

00:48:01.290 --> 00:48:07.770

Kathryn Wheeler: And sex the industry certification identifier was funded previously for the student.

200

00:48:08.820 --> 00:48:20.160

Kathryn Wheeler: So what can we do about these. Well, if your problem is number one, the industry certification record is created locally, but not sent to FDA Oh gee, if you're not sure

201

00:48:20.490 --> 00:48:35.520

Kathryn Wheeler: Request. The old file, it's the F 714330 you just call it the old file and verify that it contains the number of records you expect check specific schools certifications and students.

202

00:48:37.710 --> 00:48:47.310

Kathryn Wheeler: To if you if the industry certification record received reject records, causing the record to not load to FDA we

203

00:48:47.940 --> 00:49:03.900

Kathryn Wheeler: You always want to check the initial or batch edit listing following each file submission, the edit listing system generated automatically after each submission. You do not need to request the report.

204

00:49:08.220 --> 00:49:20.970

Kathryn Wheeler: Three. If the industry certification outcome on the industry certification record does not have passing outcome, the outcome must be the code. P. To be eligible for funding.

205

00:49:23.100 --> 00:49:31.950

Kathryn Wheeler: For if the industry certification identifier on the industry certification record has an identifier that is not funding eligible

206

00:49:33.090 --> 00:49:54.630

Kathryn Wheeler: Check the peak K 12 appendix z the appendix year should be the same as the data reporting year the column additional f t eligible under the FF P funding statute must be YES in order to be eligible for funding.

207

00:49:57.060 --> 00:50:02.940

Kathryn Wheeler: If the certification was earned through dual enrollment with the district post secondary institution or the Florida college

208

00:50:03.600 --> 00:50:08.520

Kathryn Wheeler: System will need to check the post secondary Industry Certification funding list.

209

00:50:09.240 --> 00:50:25.650

Kathryn Wheeler: The column eligible for district performance incentive funds must be YES in order to be eligible for funding for districts or column eligible for college performance incentive funds must be yes. To be eligible for colleges for funding.

210

00:50:28.830 --> 00:50:38.460

Kathryn Wheeler: Five. If your industry certification record doesn't match the district register and career theme course registration, you want to check the

211

00:50:39.510 --> 00:50:40.890

Kathryn Wheeler: Appendix FF

212

00:50:42.000 --> 00:50:54.840

Kathryn Wheeler: All three of the fields should match the school number of the course number Industry Certification identifier on appendix FF in order for it to be eligible for funding.

213

00:50:57.090 --> 00:51:07.350

Kathryn Wheeler: And if your reason is the sixth if it was previously funded student cannot be funded for a specific certification more than once.

214

00:51:08.190 --> 00:51:29.310

Kathryn Wheeler: The historical F7 1297 reports contain all the information needed to verify when or if a student was previously funded, so you should save all your F 712 97 records and you can search those to see if the student was funded and a previous year.

215

00:51:31.050 --> 00:51:40.920

Kathryn Wheeler: So if the student and the certification were funded previously they can't be funded again even if you report it everything correctly in the current reporting year

216

00:51:42.330 --> 00:51:51.420

Kathryn Wheeler: And you should download that F7 1297 report as soon as possible, as it is only available for a limited time

217

00:51:55.350 --> 00:52:03.300

Kathryn Wheeler: The department recommends that you work with your district CTE leadership on reviewing rejected records.

218

00:52:03.900 --> 00:52:24.630

Kathryn Wheeler: So provide your CTE director with all this information on the certifying the industry certification records, you need to send them the rejected records with information on which edit was an issue. The F 710 he to report and the F 714 32 report.

219

00:52:26.700 --> 00:52:35.400

Kathryn Wheeler: We have some best practices for ensuring 1920 Industry Certifications are funded and the

220

00:52:38.580 --> 00:52:57.480

Kathryn Wheeler: Number one, be sure to load your industry certification data by July 24th 2020 the due date for the format run the F7 1415 report to validate funding eligibility of records.

221

00:52:59.250 --> 00:53:12.150

Kathryn Wheeler: Share the report with your CTE director, they'll be able to review and identify discrepancies with career themed course registration and Industry Certification records.

222

00:53:13.440 --> 00:53:23.040

Kathryn Wheeler: And from August 1 through August 10 the district can update their career themed course registration for appendix FF

223

00:53:23.490 --> 00:53:42.660

Kathryn Wheeler: Now, I do have some updated information for you. Hopefully this will be some good news. This year we've decided to open that final career themed course registration window earlier, we're planning on opening it July 15 just because this has been a very hectic year

224

00:53:43.740 --> 00:53:50.700

Kathryn Wheeler: With school closures. We wanted to be able to give districts enough time to

225

00:53:51.930 --> 00:54:17.520

Kathryn Wheeler: thoroughly check their appendix FF entries and career themed course registrations, but always the last day for career themed course registration is it's always going to be august 10 and that is in part because we have to open up Academy registration for the following year.

226

00:54:19.380 --> 00:54:30.300

Kathryn Wheeler: In mid August so career theme course registration, the last day. You can do it is August 10 but please do not wait until the last day because you may run into some problems.

227

00:54:31.470 --> 00:54:41.190

Kathryn Wheeler: And number five, make sure that you submit your edits by the survey five deadline which is October 31 2020

228

00:54:42.390 --> 00:54:56.070

Kathryn Wheeler: We are allowing for you know Industry Certifications many students may be taking those when school opens again in the fall. They may be taking them on campus and

229

00:54:57.210 --> 00:55:07.410

Kathryn Wheeler: It's certifications can be reported for 1920 up until sometime in October, on your school district may have

230

00:55:08.700 --> 00:55:21.690

Kathryn Wheeler: A final deadline, maybe in October, by which certifications must be earned in order for you to get those reported by that survey five deadline on October 31

231

00:55:25.500 --> 00:55:43.170

Kathryn Wheeler: So I have provided a few links to different resources for the CTE database handbook and the dependencies. The survey dates the k plus different resources on our website for cape.

232

00:55:44.490 --> 00:55:46.110

Kathryn Wheeler: And our statutes and roll.

233

00:55:48.660 --> 00:55:53.880

Kathryn Wheeler: This is my contact information, my email addresses and my phone number.

234

00:55:55.230 --> 00:56:09.330

Kathryn Wheeler: I've also provided Leann aims his contact information. She does data recording and I have a contact for the school grades office. If you have questions about that.

235

00:56:11.940 --> 00:56:18.390

Kathryn Wheeler: So, at this time, I can take any questions that you may have.

236

00:56:19.500 --> 00:56:26.130

Kathryn Wheeler: I can take a look at the questions in the chat box.

237

00:56:26.970 --> 00:56:36.060

Brian Boyd - The King of FAMIS: And there. Looks like we only have one question right now, Tom. I had heard there was a legislation to remove the cap for middle school that that pass

238

00:56:36.090 --> 00:56:37.170

Kathryn Wheeler: Will Middle School.

239

00:56:37.290 --> 00:56:39.630

Brian Boyd - The King of FAMIS: Will be kept in 2021

240

00:56:40.080 --> 00:56:50.580

Kathryn Wheeler: Why I saw that and I did cover it in my presentation. Unfortunately, know that cap has not been removed. We had it in our

241

00:56:51.660 --> 00:56:56.400

Kathryn Wheeler: Agency legislative request, but it didn't make it through.

242

00:56:58.020 --> 00:57:00.180

Kathryn Wheeler: Perhaps it will make it through and

243

00:57:01.260 --> 00:57:04.620

Kathryn Wheeler: Subsequently year but right now.

244

00:57:05.820 --> 00:57:11.550

Kathryn Wheeler: We're still we're still limited to point one for students in grades K through eight

245

00:57:20.160 --> 00:57:21.540

Brian Boyd - The King of FAMIS: You have any questions.

246

00:57:25.920 --> 00:57:28.110

Kathryn Wheeler: Sure, if our participants are muted.

247

00:57:30.390 --> 00:57:31.770

Brian Boyd - The King of FAMIS: Yeah, they are all muted, but

248

00:57:32.850 --> 00:57:33.150

Brian Boyd - The King of FAMIS: Yeah.

249

00:57:33.480 --> 00:57:34.830

Brian Boyd - The King of FAMIS: But typically they have two questions.

250

00:57:34.830 --> 00:57:36.330

Brian Boyd - The King of FAMIS: In the chat. I'm not seeing anything

251

00:57:37.260 --> 00:57:37.650

Kathryn Wheeler: In the chat.

252

00:57:37.680 --> 00:57:37.950

Kathryn Wheeler: Okay.

253

00:57:38.790 --> 00:57:42.630

Brian Boyd - The King of FAMIS: Is the window to apply to add new certifications.

254

00:57:43.860 --> 00:58:07.020

Kathryn Wheeler: So the window to apply to add new certifications for the 2021 22 year is coming up all submissions must be done through the career source Florida submission process and that will be opening July 31 through. I believe it's August

255

00:58:09.060 --> 00:58:14.250

Kathryn Wheeler: We will be sending out information about that very soon.

256

00:58:22.140 --> 00:58:24.000

Brian Boyd - The King of FAMIS: Okay, I think that's everything.

257

00:58:26.040 --> 00:58:28.170

Kathryn Wheeler: Oh, and I i do know there was

258

00:58:29.520 --> 00:58:32.370

Kathryn Wheeler: A bonus question their prize question.

259

00:58:32.400 --> 00:58:33.780

Brian Boyd - The King of FAMIS: Yes. Yes. Ready.

260

00:58:35.550 --> 00:58:41.970

Brian Boyd - The King of FAMIS: So you'll ask the question, and the first person in the chat who responds correctly will win the prize.

261

00:58:42.120 --> 00:58:55.470

Kathryn Wheeler: Okay, so. Everybody get ready. Get to your keyboards, make sure you're ready. So we'll take the answer through group chat. So whoever answers the question correctly first wins a Roku

262

00:58:56.130 --> 00:58:57.780

Brian Boyd - The King of FAMIS: Yes, Roku sp.

263

00:58:58.350 --> 00:59:13.170

Kathryn Wheeler: Wow. Okay. The question is, what is the last day to register career themed courses or the 2019 20 school year.

264

00:59:15.030 --> 00:59:19.800

Kathryn Wheeler: We have a winner is Karen Rubino

265

00:59:20.820 --> 00:59:21.360

Kathryn Wheeler: 10th.

266

00:59:25.980 --> 00:59:29.040

Kathryn Wheeler: Now he's going home with a brand new Roku Roku

267

00:59:30.630 --> 00:59:32.220

Brian Boyd - The King of FAMIS: Well, we will mail it to work, but

268

00:59:34.500 --> 00:59:42.720

Brian Boyd - The King of FAMIS: Karen. If you could just email your information to famous Florida at GMAIL. COM AND WE WILL SEND THAT right out to you.

269

00:59:45.630 --> 00:59:51.300

Kathryn Wheeler: All right. Oh, wow. Congratulations. Karen and congratulations to all who

270

00:59:53.280 --> 01:00:03.510

Kathryn Wheeler: Also knew the answer. And thank you all for joining my presentation. If you have any questions, please do not hesitate to email me or give me a call.

271

01:00:05.640 --> 01:00:19.650

Kathryn Wheeler: I hope you all have a great summer and a great school year. I know it's been really tough and I appreciate all that you do for our students and our districts
