Reporting Update 2020

Stephen W. Bowen

Assistant Deputy Commissioner of Data Systems

Florida Department of Education

Innovative Course Reporting

- Let's define some terms
 - **Brick and mortar:** in-person, at school of instruction
 - **Virtual:** delivered on-line through District Virtual School Franchise or FLVS (70xx schools)
 - **Innovative:** instruction used to provide parents choice during the pandemic per the district reopening plan

Innovative Course Reporting

- Innovative course participation is subject to class size
- No core courses designated exempt from class size should have students marked as Innovative (i.e. blended, virtual, home school, etc.)
- All other existing class size rules still apply
- No existing reporting outside of Innovative has not changed
- Just having Innovative students as part of the class does not qualify the brick and mortar class as blended learning

Location of Student Data Element

<http://fldoe.org/core/fileparse.php/19879/urlt/2021-197241.pdf>

- Chosen as the way to collect data on the use of Innovative course delivery as outlined in the District's Reopening Plan
- Assigned at the student course level
- The new code in the database manual is "I"

Code	Definition/Example
I	The student is not located in a public school district facility during the regular school day for the innovative instruction course.

Facility Type Designation

- On the Teacher Course format
- For Innovative courses, Facility type is School District Facility code “00” regardless of teacher location
- May utilize FISH numbers for non-standard classrooms

Innovative Course Reporting

Be Kind!

HOPE Scholarship Notification
