Steps in Class Size Calculation

Mrs. Johnson's 7th Grade Math Class

23 students

- Room 101
- Term 1
- Period 4

Scheduling Methods

CODE	TITLE	DEFINITION	FACTOR
A	Alternate Week Schedule	Teacher meets with different groups of students in same course/classroom on same day, but alternate weeks.	All students are aggregated, unduplicated, and divided by 2.
B	Block Scheduling	Course is scheduled so that students may earn one credit in the course in a semester.	All students are aggregated, unduplicated, and divided by 1
C	Co-teaching	A classroom in which two or more teachers share responsibility for planning, delivering, and evaluating instruction for all students in a class. In order to be considered co-teaching, this delivery system is provided whenever a class/subject is taught by two or more teachers and must continue for the entire class period.	All students are aggregated, unduplicated, and divided by the number of teachers in the same term/FISH/period coded "C".
G	Individual or Small Group Instruction (Separate Setting)	Teacher meets with an individual student or small group of students in a separate classroom setting.	All students are aggregated, unduplicated, and divided by 1.
I	In-Class One-on-One (with Self-Contained)	Teacher meets with an individual student or small group of students on an individualized basis within a traditional classroom but not as a co-teacher.	All students assigned to the teacher coded "I" are divided by all teachers in the class.
M	Multiple-Use Classroom or Pod	More than one class meets during the same period in a space designated by one FISH number but separated by temporary "walls."	All students are aggregated and divided by the number of teachers coded "M".
S	Self-contained	One teacher provides total instruction for the entire class period.	All student are aggregated, unduplicated, and divided by 1.
W	Wheel Class	Same course meets in the same room with the same teacher during the same period on multiple days of the week, but with different groups of students.	All students are aggregated, unduplicated, and divided by 1.

Mrs. Johnson's 7th Grade Math Class

Step 1. Count the number of students in each course within each class (term*/period/FISH).

Room 101- Term 1- Period 4 = 23 students in a 7th grade math course

Step 2. Determine the main course** taught in each class based on the course with the majority of students.

Main Course = Math Grade 7

- Math grade 7= 23 students

Mrs. Johnson's 7th Grade Math Class

Step 3. Determine main grade taught in each class based on the grade with the majority of students in the main course.

Math Grade 7 Course

- 19 Grade 7 Students
- 4 Grade 6 Students

Step 4. Identify the classroom in which the main course is a “core” course. Use only these classrooms in the remaining steps.

Main Course = Math Grade 7

Course Code Directory Table - DPS.DISTRICT.K9.F62806.Y2122

Yes. Math Grade 7 is a core course.

Mrs. Johnson's 7th Grade Math Class

Step 5. Count the number of students in each classroom allowing for adjustments based on Scheduling Method.

Room 101- Term 1- Period 4 = **21 students**

Math Grade 7 - Section 1 Scheduling Method S	Math Grade 7 - Section 2 Scheduling Method I
23 students	3 students

Math Grade 7 - Section 1 Scheduling Method S	Math Grade 7 - Section 2 Scheduling Method I
20 students	3 students

Math Grade 7 - Section 1 Scheduling Method S	Math Grade 7 - Section 2 Scheduling Method I
20 students	1 students

****20 students + 1 student = 21 students****

Mrs. Johnson's 7th Grade Math Class

Only proceed to Step 6 if the school is **not** a traditional public school for class size purposes.

Step 6. Calculate the grade group average for Charter Schools, Schools of Choice, Schools of Excellence, and Principal Autonomy Program Schools.

Formula for each grade group average: Total students in each core course **divided by** total number of core classrooms.

Overview of 2021-22 Class Size Process

Survey 2 Class Size Trial Runs take place in September.
(Required formats: Student Course Schedule and Teacher Course)

After each class size processing, Class Size reports are produced over the weekend and made available for district download the following Monday.

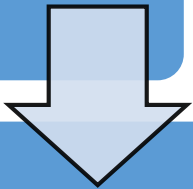

Class Size Data Quality Application is refreshed after Class Size reports are produced. Districts and charter schools may use the application to assist with resolving data reporting errors.

Overview of 2021-22 Class Size Process

Final Survey 2 data (as of December 15) are used to determine compliance with class size maximums.

After class size compliance has been determined, districts and charter schools may submit a class size appeal due to data reporting errors or extenuating circumstances.

All data reporting errors must be corrected in the Class Size Appeal Web Application and supporting documentation must be uploaded to the FLDOE ShareFile folder.

Class Size Website Application
