

WEBVTT

7

00:01:06.450 --> 00:01:07.980

famisflorida@gmail.com: Good afternoon, everybody.

8

00:01:10.350 --> 00:01:11.910

famisflorida@gmail.com: Good to see all of you all.

9

00:01:14.580 --> 00:01:18.390

famisflorida@gmail.com: My name is Theresa saying, though, and.

10

00:01:19.560 --> 00:01:22.260

famisflorida@gmail.com: I am the database manager for.

11

00:01:23.940 --> 00:01:38.700

famisflorida@gmail.com: Data Collection students staff data collection and I am here to discuss the student database changes for 2122 can you believe that 2122 wow.

12

00:01:42.240 --> 00:01:44.070

famisflorida@gmail.com: So, moving right along.

13

00:01:45.540 --> 00:01:53.190

famisflorida@gmail.com: What we're going to be talking about our I share these each year, so I won't read them out just let you go and look at them, the Stat.

14

00:01:54.240 --> 00:01:57.150

famisflorida@gmail.com: references for data collection.

15

00:01:58.680 --> 00:02:00.510

famisflorida@gmail.com: Then we're going to talk about the actual.

16

00:02:01.770 --> 00:02:13.020

famisflorida@gmail.com: updates looking at the data elements and the impacted edits and then looking at the formats, the edit other edit and business rules, not actually associated with a data element change.

17

00:02:13.380 --> 00:02:22.350

famisflorida@gmail.com: And the dependencies changes for the dependencies a little a few database reporting reminders and also some database manual resources.

18

00:02:23.610 --> 00:02:35.580

famisflorida@gmail.com: So there you have it rules, six, eight that's 1.01 for Florida administrative code and section 100 8.35 Florida statutes.

19

00:02:36.210 --> 00:02:47.880

famisflorida@gmail.com: That mandates our authority to collect the data from school districts and, of course, you know we file reports with the Federal Government state, on your behalf, for the most part, so.

20

00:02:49.770 --> 00:03:01.680

famisflorida@gmail.com: This gives us the authority to collect that data from you, so you get follow up on those and read if you need to a little bit more so we're going to get in right into the nitty gritty of the changes, you can send know you just can't stand it.

21

00:03:03.810 --> 00:03:06.720

famisflorida@gmail.com: So here we go we're going to talk about data elements and.

22

00:03:07.740 --> 00:03:10.860

famisflorida@gmail.com: I don't think is as devastating as.

23

00:03:12.030 --> 00:03:17.730

famisflorida@gmail.com: All of these changes to me look you've looked at the presentation online if it's there.

24

00:03:18.180 --> 00:03:32.190

famisflorida@gmail.com: it's not as devastating as as it looks some of it is house clean his some of his a tweak here and there, and for the most part the changes are not like major changes as we've had in the past, so I think you'll be pleased at best Internet certificate.

25

00:03:38.520 --> 00:03:39.600

famisflorida@gmail.com: This is not something.

26

00:03:54.600 --> 00:03:56.550

famisflorida@gmail.com: That, I think it's something that you put on.

27

00:03:58.170 --> 00:04:01.350

famisflorida@gmail.com: Maybe but anyway, the previously.

28

00:04:02.370 --> 00:04:02.520

famisflorida@gmail.com: At.

29

00:04:04.860 --> 00:04:07.680

famisflorida@gmail.com: The national certificate Program.

30

00:04:10.560 --> 00:04:11.370

famisflorida@gmail.com: Now.

31

00:04:19.290 --> 00:04:21.120

famisflorida@gmail.com: International citizen good.

32

00:04:32.040 --> 00:04:39.840

famisflorida@gmail.com: So the definition was updated to align with that and justification fish number.

33

00:05:27.930 --> 00:05:41.370

famisflorida@gmail.com: you'll see the actual strike for those in that document that will help you and making sure you update your si system and documentation so that database manual update page has the student and staff changes.

34

00:05:43.410 --> 00:05:46.500

famisflorida@gmail.com: All mock mock up marked up so you can see that.

35

00:05:49.380 --> 00:05:53.010

famisflorida@gmail.com: Moving on the diploma type of course you know.

36

00:05:54.300 --> 00:06:16.320

famisflorida@gmail.com: The Governor had to institute the wc old code again this year for waving assessments, so the wc oh code for a diploma Code and the w 60 code for adults were reinstated for 2021 so in the 2122 documentation, of course, we had to take that out, so this is basically what that is.

37

00:06:17.430 --> 00:06:26.010

famisflorida@gmail.com: And you can see the edits that are impacted there on the student and the year status business rules numbers 932 and three see.

38

00:06:27.120 --> 00:06:32.310

famisflorida@gmail.com: So this is something you want see in 2122, and rightly so.

39

00:06:34.200 --> 00:06:50.340

famisflorida@gmail.com: district number current enrollment and the definition was updated on this date, I mean it's been this way for years, but code 99 in Appendix see states other than a Florida school.

40

00:06:51.450 --> 00:06:55.200

famisflorida@gmail.com: long, long time ago, the word public was in there and.

41

00:06:56.400 --> 00:07:08.520

famisflorida@gmail.com: We were this really was supposed to capture, not a Florida school, not in Florida non public school or school that's not in the state of Florida, so the Republic was removed from that language long, long time ago.

42

00:07:08.910 --> 00:07:18.240

famisflorida@gmail.com: But some of the data elements didn't get updated, because if you don't connect the dots and there's always connecting the dots in database.

43

00:07:18.870 --> 00:07:29.730

famisflorida@gmail.com: documentation from a data element to it so some things get overlooked, and this is actually catching up we catch up when we get a chance to look at stuff so we were.

44

00:07:30.120 --> 00:07:44.850

famisflorida@gmail.com: We clean that up and make the definition, just as it is an appendix see on the district number current enrollment and it didn't affect any edits or anything like that it was just the verbiage for code 99 on the district number current enrollment field.

45

00:07:46.830 --> 00:07:48.540

famisflorida@gmail.com: district number reporting district.

46

00:07:49.620 --> 00:08:01.500

famisflorida@gmail.com: And this had a lot of changes because the data element name was changed from reporting district to district number where incident occurred to align with the.

47

00:08:02.970 --> 00:08:05.040

famisflorida@gmail.com: Go number where incident occurred.

48

00:08:06.180 --> 00:08:11.940

famisflorida@gmail.com: So it's basically the same thing of what you've always been reporting we just named it correctly okay.

49

00:08:12.540 --> 00:08:17.280

famisflorida@gmail.com: So, instead of just numb reporting districts is district number, where the incident actually occurred.

50

00:08:17.880 --> 00:08:33.540

famisflorida@gmail.com: So that was all over the assessor format, and I mean edits so, of course, the whole edit just got put in there, and you see where that terminology was updated for district number reporting district to district number where incident occurred.

51

00:08:34.560 --> 00:08:46.770

famisflorida@gmail.com: The we update the definition again here for 99 to align with what's an appendix D and this data element was also added to the student discipline format.

52

00:08:47.220 --> 00:08:55.710

famisflorida@gmail.com: The student discipline for are already had school number way incident occurred, so it just makes sense that we should also collect the district number because.

53

00:08:56.460 --> 00:09:10.440

famisflorida@gmail.com: All the time the district number where they secured is not the district is reporting it correct so assessor assess office thought it was necessary that we add this data element to the student discipline format as well.

54

00:09:12.180 --> 00:09:13.140

famisflorida@gmail.com: and

55

00:09:14.460 --> 00:09:23.910

famisflorida@gmail.com: So there's a new edit as to the discipline of course you know, whenever we add a data element to anything that data element gets its very own business rule on that particular format.

56

00:09:25.680 --> 00:09:27.960

famisflorida@gmail.com: district number recorded earn.

57

00:09:29.460 --> 00:09:45.660

famisflorida@gmail.com: Now, this one is different because it's the student transcript information format in survey five so that 99 has a different definition only for this format.

58

00:09:46.920 --> 00:10:03.000

famisflorida@gmail.com: Because we're trying to capture the post secondary schools and non public schools on the on the transcript it's been that way forever, but and nothing changed i'm just clarifying why it is still different than what is the.

59

00:10:04.290 --> 00:10:07.770

famisflorida@gmail.com: appendix see you follow okay.

60

00:10:10.050 --> 00:10:10.890

famisflorida@gmail.com: Next.

61

00:10:12.180 --> 00:10:25.620

famisflorida@gmail.com: district number were disciplined so a lot of these district numbers district number this number nine nine code, we had to clean it up, and this is another one of those instances where we align the definition to follow what's in Appendix see.

62

00:10:26.460 --> 00:10:35.610

famisflorida@gmail.com: Is this particular data element is not report it to the State, so there are no edits our for our anything else impacted other than the definition was updated.

63

00:10:36.660 --> 00:10:48.990

famisflorida@gmail.com: Moving on to dropout prevention data element changes dropout prevention juvenile justice outcomes, this is another data element that's not reported to the state.

64

00:10:49.740 --> 00:11:11.790

famisflorida@gmail.com: However, because it's one that's used state why we want to make sure that everybody's on the same page, so a Co T you know cody was added last year to drop up vince programs, so it was just added to the title of the education services section and is no longer required for grades.

65

00:11:13.140 --> 00:11:15.570

famisflorida@gmail.com: For the 12 required for grades one through 12.

66

00:11:18.540 --> 00:11:24.720

famisflorida@gmail.com: And, of course, there are no errors impacted for this data element, because it's not going to stay.

67

00:11:25.830 --> 00:11:30.300

famisflorida@gmail.com: dry dropout prevention juvenile justice placement reasons, this is another one of those.

68

00:11:31.530 --> 00:11:47.490

famisflorida@gmail.com: Data elements that's not report to state, but has to be recognized statewide when your for your purposes, and there was a definition for co I on a disciplinary the note was deleted in reference to co I and to new codes were added.

69

00:11:48.720 --> 00:11:50.610

famisflorida@gmail.com: code em and.

70

00:11:56.370 --> 00:12:01.530

famisflorida@gmail.com: not tell you what those are I was thinking, I would have the Internet up there, but that's not necessary.

71

00:12:13.530 --> 00:12:14.970

famisflorida@gmail.com: So the new codes.

72

00:12:19.470 --> 00:12:19.980

famisflorida@gmail.com: are for.

73

00:12:42.120 --> 00:12:56.850

famisflorida@gmail.com: OK, so the new code em so code, I was changed from alternative placement to alternative to expulsion and the new codes under education or alternatives and as a substance abuse and oh it's the other.

74

00:12:58.050 --> 00:13:01.350

famisflorida@gmail.com: So the dropout Prevention Office want to clarify that, for you are.

75

00:13:03.930 --> 00:13:07.500

famisflorida@gmail.com: Of course, there are no impacted it it's because it's not reported to the state.

76

00:13:08.580 --> 00:13:18.930

famisflorida@gmail.com: dropout prevention juvenile justice programs, this one is the data elements updated the definition for this was updated.

77

00:13:20.760 --> 00:13:28.110

famisflorida@gmail.com: To correctly reference detention centers and non adjudicated clarifying language so.

78

00:13:29.400 --> 00:13:31.050

famisflorida@gmail.com: And you can look at that later.

79

00:13:32.670 --> 00:13:41.430

famisflorida@gmail.com: What else the code for definition the end Code and the definition was updated and I think most of you all are staying in those, but if you need for me to.

80

00:13:41.850 --> 00:13:50.130

famisflorida@gmail.com: actually read it just let me know, but you have this documentation that was online so i'm not going to spend that time reading it if it's okay with you all.

81

00:13:50.940 --> 00:14:02.310

famisflorida@gmail.com: clarify the definition for code Z that was another another update for dropout prevention juvenile justice programs so drop out vigilant, a prescribed Program.

82

00:14:04.500 --> 00:14:06.330

famisflorida@gmail.com: For that the code oh.

83

00:14:08.190 --> 00:14:11.760

famisflorida@gmail.com: code Oh, it was referenced it was updated.

84

00:14:12.870 --> 00:14:15.600

famisflorida@gmail.com: Now that was that was updated to records.

85

00:14:18.720 --> 00:14:20.760

famisflorida@gmail.com: Too many drove up inventions, thank you.

86

00:14:22.740 --> 00:14:24.390

famisflorida@gmail.com: So code oh.

87

00:15:02.070 --> 00:15:12.990

famisflorida@gmail.com: Like I say let the prescribed program that was updated to correctly identify the aggregate reporting for code Oh, and there were no edits impacted because.

88

00:15:14.160 --> 00:15:21.210

famisflorida@gmail.com: This is just the definition the Co remains the same dropout prevention performance based exit test results.

89

00:15:21.630 --> 00:15:30.480

famisflorida@gmail.com: The note for fur coat coat wg a was updated in the past, it had alternative assessments, where that has been since updated.

90

00:15:30.870 --> 00:15:45.060

famisflorida@gmail.com: To be in line with everything else that was changed in previous years for alternative assessments to concord and are compared to score so that was just to make it consistent with all the other languages from from quarter to quarter pair to score.

91

00:15:46.350 --> 00:15:53.820

famisflorida@gmail.com: Educational choice code over the family empowerment scholarship was added, because there are students who can.

92

00:15:54.810 --> 00:16:02.070

famisflorida@gmail.com: Who are awarded this scholarship but can go to another public school, rather than a private school.

93

00:16:02.430 --> 00:16:15.420

famisflorida@gmail.com: So just like mckay students can go to another public school where for fps they can do that as well, so code oh was added to capture that, and so the edits that were updated on the progress status for men, as you can see our coast.

94

00:16:16.680 --> 00:16:18.660

famisflorida@gmail.com: Is 36 and 45.

95

00:16:21.750 --> 00:16:22.800

famisflorida@gmail.com: fund source.

96

00:16:24.540 --> 00:16:44.640

famisflorida@gmail.com: The code, I was updated a while back to say we just we just covered this a few years ago, if not leisure to update co is the ESC office wants to say students who are and who are not currently identified, but then.

97

00:16:46.050 --> 00:16:55.950

famisflorida@gmail.com: Since they've received a better understanding from federal from the Federal Office of what they really want so they have stricken those who are not.

98

00:16:57.630 --> 00:17:13.620

famisflorida@gmail.com: Those who are they don't need those who are now they just only need to collect those who are not so cold, I was updated this year to correct identify what the federal Federal Office is looking for so you'll see that corrected from last year.

99

00:17:14.940 --> 00:17:16.650

famisflorida@gmail.com: immunisation status.

100

00:17:17.880 --> 00:17:23.100

famisflorida@gmail.com: Nothing changed here, except the definitions for coast w X and y.

101

00:17:24.420 --> 00:17:31.470

famisflorida@gmail.com: Most times you've seen fewer than 31 days well that's not what the statutory language says so.

102

00:17:32.130 --> 00:17:49.290

famisflorida@gmail.com: The immunization office wanted to make sure that the language in the data element reflected the language in the Statute, which says 30 school days rather than fewer than 31 days there's a difference when you add the term school days so 30 school days.

103

00:17:50.340 --> 00:17:53.160

famisflorida@gmail.com: And that's encodes w X and y.

104

00:17:54.360 --> 00:17:56.460

famisflorida@gmail.com: incident basis religion.

105

00:17:59.400 --> 00:18:04.080

famisflorida@gmail.com: per the assessor rule in all the discussion relating to assessor for.

106

00:18:05.430 --> 00:18:23.430

famisflorida@gmail.com: harassment or bullying based on religion well the y co has been changed to actually list the different kinds of religions were willing, you know Ras may have taken place, so I said, have a why now you actually select the actual religion.

107

00:18:24.690 --> 00:18:36.570

famisflorida@gmail.com: atheism agnosticism Buddhists Catholic, whatever the religion is that was the nature of the bullying harassment you'll identify there, so the y code is no longer there you have all these columns.

108

00:18:37.020 --> 00:18:44.820

famisflorida@gmail.com: A through m n O two X and the edits have been updated Accordingly, it is 38 and 41 on the set of format.

109

00:18:46.050 --> 00:18:47.970

famisflorida@gmail.com: incident involvement tight.

110

00:18:49.140 --> 00:18:55.830

famisflorida@gmail.com: To new codes are added to this to identify students that are at the district code oh.

111

00:18:56.460 --> 00:19:12.060

famisflorida@gmail.com: And to also identify if school personnel were involved in the incident, so you have a P, to identify school personnel and oh four out of district student and, of course, the edit sets of 10 has been updated to reflect that.

112

00:19:13.980 --> 00:19:22.890

famisflorida@gmail.com: Next, we have institution neglected and delinquent and a lot of these dropout prevention updates that i'm talking about there will be a dropout.

113

00:19:23.970 --> 00:19:37.440

famisflorida@gmail.com: Prevention session on Wednesday at 830 So if you want to get more information on these updates, they will they will be discussed there if you want to learn more about these updates for dropout prevention and.

114

00:19:38.490 --> 00:19:42.120

famisflorida@gmail.com: neglected Antonio and all of that would be in that session on Wednesday at 830 okay.

115

00:19:44.130 --> 00:19:48.930

famisflorida@gmail.com: But for the institution neglected notes were updated under survey.

116

00:19:49.980 --> 00:20:06.180

famisflorida@gmail.com: And the survey five on the survey nine clarification was given to what is meant by none none residential was or movies, to be residential are non residential non residential has been removed from the language and also, of course, you know Washington special hasn't been.

117

00:20:07.740 --> 00:20:12.120

famisflorida@gmail.com: around for a while, so that was clean up to remove it language for Washington special.

118

00:20:13.200 --> 00:20:31.860

famisflorida@gmail.com: The update on the survey five if you've noticed in the past it limited to limited the ages to five to 17 as the survey nine but survey five should not have a limit on the age all should be reported, so the five to 17 is only for 7975 should be for everybody okay.

119

00:20:33.540 --> 00:20:56.370

famisflorida@gmail.com: location of students, of course, you know for the pandemic code I to accommodate the various learning environments that had to take place in schools, you know virtual at home or brick and mortar so code, I was allowed in the 2120 2021 school year it is not allowed in the.

120

00:20:57.630 --> 00:21:11.820

famisflorida@gmail.com: So code I and any associated edits have been removed from the documentation and, as you can see it affected edits for be on the student course format and it's for before each, for I and 65.

121

00:21:13.380 --> 00:21:16.110

famisflorida@gmail.com: Progress level math This is just housecleaning.

122

00:21:17.610 --> 00:21:20.700

famisflorida@gmail.com: drop adventure saw a colon and didn't like it and we removed it.

123

00:21:24.660 --> 00:21:31.980

famisflorida@gmail.com: Reading it to betcha component now, this is another one that was updated last year and.

124

00:21:33.180 --> 00:21:42.090

famisflorida@gmail.com: After getting the getting data and looking at it, they realize that we don't need a code see under reading intervention component.

125

00:21:42.420 --> 00:21:56.310

famisflorida@gmail.com: Where it indicates that a student is both in tier one and tier two, we need to know if they're into two, which is code a or we need to know if they're into three so if they're into three I guess.

126

00:21:57.540 --> 00:22:15.360

famisflorida@gmail.com: It might be assumed that they have are in you know tier two and tier three together, but they don't want the cozzi anymore so see has been removed indicate both tier two and tier three so we're back to and be either their into their into three and the data supports.

127

00:22:16.680 --> 00:22:21.150

famisflorida@gmail.com: For the just run for office support deleting that code see.

128

00:22:23.160 --> 00:22:23.940

famisflorida@gmail.com: school year.

129

00:22:26.040 --> 00:22:30.900

famisflorida@gmail.com: As you know, survey are says a monthly reporting is effective in the.

130

00:22:31.890 --> 00:22:41.550

famisflorida@gmail.com: school year so that wording was updated last year to get you familiar with the fact that survey our will be monitoring, reporting in 2122.

131

00:22:41.790 --> 00:22:54.630

famisflorida@gmail.com: So we added language to the survey year and survey period Code, the next one to indicate the effective date with for survey are so this is just removing it, because here we are, we are in the effective date of July.

132

00:22:55.320 --> 00:22:59.820

famisflorida@gmail.com: So documentation was updated to remove reference to the words effective year.

133

00:23:00.900 --> 00:23:08.940

famisflorida@gmail.com: test score, this is, this is another housecleaning issue be because F cat was in the reference notes and we removed fk.

134

00:23:10.620 --> 00:23:17.820

famisflorida@gmail.com: year, this is another one of those that were preparing you for the monthly sesa reporting, so the words effective was removed from that.

135

00:23:19.020 --> 00:23:22.080

famisflorida@gmail.com: And here is your only new data element how about that.

136

00:23:23.940 --> 00:23:34.590

famisflorida@gmail.com: yeah it sounds an assessor format in a school personnel incident outcome and I mentioned to you that for involvement type.

137

00:23:35.340 --> 00:23:43.740

famisflorida@gmail.com: Personnel may be involved so that's called P Coppi the new co op Well, this is to report the outcome.

138

00:23:44.550 --> 00:24:01.110

famisflorida@gmail.com: For that school person those schools personnel who may have been involved in incident and you have new codes is this data element is on the assessor format and you have coasts indicate whether the school personnel was the employee was.

139

00:24:02.310 --> 00:24:08.790

famisflorida@gmail.com: reassigned duty reassign or Code and the personnel was found not to be responsible.

140

00:24:09.870 --> 00:24:21.480

famisflorida@gmail.com: Are P for pending determination are the employee resigned or retire prior to final determination artistic just are the discipline.

141

00:24:22.170 --> 00:24:37.290

famisflorida@gmail.com: code w the person that was found to be not responsible are responsible because code and is not responsible code w is the employee is found to be responsible, or Z the not applicable because it doesn't apply.

142

00:24:38.640 --> 00:24:40.770

famisflorida@gmail.com: To students, so you have that opt out code.

143

00:24:42.900 --> 00:24:45.300

famisflorida@gmail.com: we're going to cover formats.

144

00:24:46.650 --> 00:24:50.370

famisflorida@gmail.com: Where updates happen, and these formats.

145

00:24:52.770 --> 00:24:54.600

famisflorida@gmail.com: Most of it is in the notes section.

146

00:24:57.990 --> 00:25:01.650

famisflorida@gmail.com: But, as you can see, for the dropout prevention program data.

147

00:25:02.760 --> 00:25:10.770

famisflorida@gmail.com: Note for was updated it talked about the length of scribe program and it clarify the meaning of.

148

00:25:13.380 --> 00:25:23.010

famisflorida@gmail.com: Decades students took out the word delinquent to got DJ and just focus on the fact that it could be juvenile detention county jail or city, so it clarified language there.

149

00:25:24.090 --> 00:25:25.470

famisflorida@gmail.com: For the length of prescribe.

150

00:25:26.910 --> 00:25:37.860

famisflorida@gmail.com: program and then it also clarify the dropout prevention left it reduced it from 250 to 180 to focus on in school days.

151

00:25:39.360 --> 00:25:41.040

famisflorida@gmail.com: And like I say for more this you can.

152

00:25:42.240 --> 00:25:51.150

famisflorida@gmail.com: attend the dropout prevention session on Wednesday and also under know eight the word at risk was removed from the language.

153

00:25:52.890 --> 00:25:57.000

famisflorida@gmail.com: The federal state compensatory those a lot of there were a few notes there.

154

00:25:58.560 --> 00:26:15.450

famisflorida@gmail.com: In several places, no one and four and five, it talks about none title one schools, but this should only be referencing title one school, so the federal the Bureau federal programs one update that indicate that these are specifically title one schools.

155

00:26:16.860 --> 00:26:19.740

famisflorida@gmail.com: The assessor format was updated.

156

00:26:23.370 --> 00:26:23.820

famisflorida@gmail.com: today.

157

00:26:27.030 --> 00:26:38.520

famisflorida@gmail.com: And this is format, as I mentioned, for some of the data elements, where indicated the monthly assessor reporting, where the note was removed from that in effect of was removed from that so that's basically.

158

00:26:38.820 --> 00:26:55.440

famisflorida@gmail.com: What that is it just talks about this submitted and surveys 235 and are, of course, are is not who not whereas, as you are doing now for the other formats, but it is monthly and i'm quite sure you've received documentation our wheel on how to report that I were to report it.

159

00:27:00.840 --> 00:27:03.180

famisflorida@gmail.com: The next format is Student Assessment.

160

00:27:04.980 --> 00:27:06.990

famisflorida@gmail.com: For Student Assessment now.

161

00:27:08.370 --> 00:27:24.360

famisflorida@gmail.com: you're now we report in alone with ace and a B and IP on the Student Assessment or minute, but survey five you also now be reporting information on the armed services vocational aptitude battery test the asb.

162

00:27:25.560 --> 00:27:36.510

famisflorida@gmail.com: This has always been in dependencies I n I so there's no change there they've always been listed there, but now you'll be using that information to report on the student.

163

00:27:37.830 --> 00:27:44.790

famisflorida@gmail.com: Assessment format and you'll find on the Student Assessment format all of the test score types.

164

00:27:46.290 --> 00:27:52.500

famisflorida@gmail.com: And things like that that applies to Asp, as you have, as you will find as an ibs listed there before.

165

00:27:54.150 --> 00:27:55.500

famisflorida@gmail.com: Student demographic.

166

00:27:56.850 --> 00:28:06.720

famisflorida@gmail.com: There again, the information about survey are and being effective in 2122 then information was updated in seven and 10.

167

00:28:07.800 --> 00:28:23.460

famisflorida@gmail.com: and also the age restriction for the student and brief moment when you report in indy that information took away the restriction of the age fat 7475 and also cleaned up and remove breakfast to Washington special.

168

00:28:24.780 --> 00:28:27.360

famisflorida@gmail.com: The student discipline results in action.

169

00:28:30.630 --> 00:28:35.910

famisflorida@gmail.com: Of course, that also remove the information about.

170

00:28:37.890 --> 00:28:38.550

famisflorida@gmail.com: Okay.

171

00:28:39.600 --> 00:28:42.450

famisflorida@gmail.com: That also remove the information about a fake.

172

00:28:43.800 --> 00:28:44.640

famisflorida@gmail.com: survey are.

173

00:28:46.080 --> 00:28:58.230

famisflorida@gmail.com: Remove that language, because we are now in a year and then, of course, you know, as I mentioned earlier, the data element district number where incident occurred was added to the student discipline format, and this is 24.

174

00:29:01.710 --> 00:29:16.560

famisflorida@gmail.com: student and to your status, of course, as I mentioned earlier, codes wc oh and w 60, we are not valid in the 2122 reporting years, so the notes were updated to remove w 60 from that documentation.

175

00:29:18.840 --> 00:29:30.900

famisflorida@gmail.com: Now the format is that these format these edits updated not based on a change to a data element, which is why is separate from the other list, where I had the data element.

176

00:29:31.260 --> 00:29:45.150

famisflorida@gmail.com: And to guide you to the actual aided with these edits are some of them annual updates for qualifying arrival dates in birthday ranges and others updated based on this, you will see so dropout prevention program data.

177

00:29:47.940 --> 00:29:50.070

famisflorida@gmail.com: And it six you know the annual.

178

00:29:51.330 --> 00:29:59.220

famisflorida@gmail.com: enrollment date program that just rolls over so we updated that information on the exceptional student format edit.

179

00:30:00.390 --> 00:30:15.450

famisflorida@gmail.com: It 32 was changed because there are some students in H5 who made it who may be in pre K, so if the if the student is H5 and and pre K, then you won't include them in.

180

00:30:17.100 --> 00:30:28.620

famisflorida@gmail.com: category, but if the student is age five and not every day, of course, you will include them in the 865 that's an idea, a federal change.

181

00:30:29.280 --> 00:30:45.030

famisflorida@gmail.com: To include five year olds if their kindergarten first grade so if, as long as they're 90 kg, they should be included in the a six to 20 my category A new edit was added it 3D is a state validation in it.

182

00:30:46.470 --> 00:30:58.620

famisflorida@gmail.com: And it's checking for certain access codes there's a reference table that's been added to for the database to hit against to make sure that the course you report it.

183

00:31:00.030 --> 00:31:01.650

famisflorida@gmail.com: applies to this particular.

184

00:31:02.670 --> 00:31:17.580

famisflorida@gmail.com: area if it's not then i'll get that state validation stating that the course is not on this table, so you need to look at it and make sure you have the right course number process status status attendance, of course, we talked about this, we deleted code wc oh.

185

00:31:19.500 --> 00:31:30.180

famisflorida@gmail.com: From edit 1735 and we updated edit 92 included to exclude fps as mckay is excluded on the process status format in that edit.

186

00:31:31.440 --> 00:31:44.670

famisflorida@gmail.com: School environmental safety, I mentioned earlier, we basically had to update just about the majority of the edits because they included the worst district number reporting district, which is now district number where incident occurred.

187

00:31:45.840 --> 00:31:59.310

famisflorida@gmail.com: We add a new add a new edit to see to make sure that alcohol and tobacco is not recorded as drug related so that it was edited to make sure that alcohol and tobacco.

188

00:32:01.620 --> 00:32:07.080

famisflorida@gmail.com: Is not reported historic related totally separate and like I say there's assessor.

189

00:32:07.860 --> 00:32:18.900

famisflorida@gmail.com: For may have more information on it there's a sensor session tomorrow at 930 if you want to make that to learn more about the different the update assessor rule and other things that might be.

190

00:32:19.530 --> 00:32:25.110

famisflorida@gmail.com: not actually reported database, but give you an overall update on what's what's happening in the sense of world.

191

00:32:28.260 --> 00:32:38.520

famisflorida@gmail.com: Student Assessment of course you know the SP that test was added, so the edits were updated to include that test student of course schedule.

192

00:32:40.800 --> 00:32:54.990

famisflorida@gmail.com: The online, there are some new online course providers, and there are some a new virtual instruction provider online course provide a great great results was so new code was added for you to report that particular.

193

00:32:56.370 --> 00:33:02.460

famisflorida@gmail.com: Online course provider and the new virtual instruction provider is graduation alliance code three two.

194

00:33:03.750 --> 00:33:21.390

famisflorida@gmail.com: So those edits are updated 54 as you see, there was updated for the virtual instruction provider the student demographic format, the birth date and for migrant status term it rolls so those edits 5141 were updated, as they are annually to.

195

00:33:22.920 --> 00:33:29.100

famisflorida@gmail.com: apply as a my age range of ages, also the qualifying arrival date in.

196

00:33:30.450 --> 00:33:36.000

famisflorida@gmail.com: 38 for migrant that was updated in less than annual update.

197

00:33:37.050 --> 00:33:46.380

famisflorida@gmail.com: The student into your status, of course, you know it it's 3pm 49 were suspended this year because of the statewide assessments were wave.

198

00:33:46.680 --> 00:34:00.030

famisflorida@gmail.com: So that was suspension on them for 2021 with that suspension is being removed for 2122 if it's reinstated then it'll be that suspension will be put back in place, but, as we know it for 2122.

199

00:34:01.170 --> 00:34:07.260

famisflorida@gmail.com: that's not the case so we'll just have to wait to the time, but hopefully everything will be back to normal and will be.

200

00:34:09.030 --> 00:34:10.290

famisflorida@gmail.com: Wherever the normal is.

201

00:34:11.760 --> 00:34:15.390

famisflorida@gmail.com: A Panda scenes So these are updates to the appendix.

202

00:34:16.470 --> 00:34:17.580

famisflorida@gmail.com: appendix a.

203

00:34:18.900 --> 00:34:33.660

famisflorida@gmail.com: w 26 was updated to include DJ students who have to exit the pk to our program to take the ged they don't necessarily have to enroll in an adult program but they still use Ko w 26.

204

00:34:34.410 --> 00:34:46.020

famisflorida@gmail.com: And so languages was updated for that code to help you to know that if they are withdrawing from the ticket to our program just to take the ged test, then this is the code, you will use.

205

00:34:47.850 --> 00:34:53.100

famisflorida@gmail.com: Also, of course, wc l was removed because it's no longer valid for 2122.

206

00:34:54.150 --> 00:35:02.280

famisflorida@gmail.com: And the word, the reference to ged was removed from the Jeff wg D code because that's the performance based option and that's not GD.

207

00:35:03.720 --> 00:35:13.740

famisflorida@gmail.com: appendix B, which is the adult which our attendance codes w 64 the way the assessments was removed for 2122 reporting.

208

00:35:14.460 --> 00:35:31.230

famisflorida@gmail.com: And, as I mentioned the Asp is already and has all has been for quite a while already listed and dependencies I ml, but this is to bring it to your attention, so you can see what is in the dependencies so you can report for these Student Assessment format and certify.

209

00:35:32.460 --> 00:35:33.480

famisflorida@gmail.com: appendix p.

210

00:35:34.710 --> 00:35:45.150

famisflorida@gmail.com: Languages added to a llc for alcohol and TV see for tobacco to indicate that these are not considered drug related substances.

211

00:35:47.310 --> 00:35:55.830

famisflorida@gmail.com: And as well update update definitions were made to battery threat and weapons so you can look at that.

212

00:35:56.400 --> 00:36:17.940

famisflorida@gmail.com: appendix CC is just practicing the new edition of the Gray graduation alliance for virtual instruction providers and encode 320 and the grade levels for 308 real nine, I think it was extended to cage well it used to be six to 12, but I do believe it was extended to cage well.

213

00:36:19.980 --> 00:36:20.070

sure.

214

00:36:33.060 --> 00:36:39.480

famisflorida@gmail.com: Yes, they were all of six now they're all okay 12 or.

215

00:36:40.680 --> 00:36:42.540

famisflorida@gmail.com: 308 through nine and 311.

216

00:36:45.540 --> 00:36:54.660

famisflorida@gmail.com: And that appendix dd else courses for weighted F T a new appendix was added, oh no i'm sorry.

217

00:36:56.130 --> 00:37:11.460

famisflorida@gmail.com: add a new senior high adult intensive reading course this once before, so the other tense of reading course the regular course it says been removed and for intensive reading courses levels wanted for read it to Appendix dd for.

218

00:37:12.540 --> 00:37:28.020

famisflorida@gmail.com: eligible Elf courses appendix GG added code 321 for great results, the new online course provider, as well the grade levels or 308 through nine three lemme data from 612 to cage well.

219

00:37:29.370 --> 00:37:36.870

famisflorida@gmail.com: appendix ah, this is a new appendix um it doesn't reference any edits or any data elements.

220

00:37:37.260 --> 00:37:46.890

famisflorida@gmail.com: Particularly for database reporting, but it is in reference to the instructional models, the English language learners instructional models data element, this is.

221

00:37:47.610 --> 00:37:59.790

famisflorida@gmail.com: This appendix, the S E II office thought would be very helpful to you all, is in the handbook for e II but he wanted it to be more visible so.

222

00:38:00.660 --> 00:38:17.130

famisflorida@gmail.com: That so that's why appendix hhs here and it helps you to understand which codes and how to how to report a how to integrate the Co host destruction model with the Elf codes So can I.

223

00:38:18.150 --> 00:38:22.200

famisflorida@gmail.com: Get stuff explanatory and when you look at the actual appendix.

224

00:38:24.990 --> 00:38:28.950

famisflorida@gmail.com: i'm going into data reporting minus, are there any questions on the updates.

225

00:38:30.180 --> 00:38:31.410

famisflorida@gmail.com: pretty well laid out.

226

00:38:35.340 --> 00:38:46.500

famisflorida@gmail.com: So these are just some reporting reminders we've got a lot of questions about the new edit to H on the student of course format for virtual.

227

00:38:47.430 --> 00:39:03.690

famisflorida@gmail.com: At one point in time grace wf in wp could be reported and service or but the F T instructions were updated in 2021 and in survey for grace wf in wp can no longer be reported.

228

00:39:05.940 --> 00:39:13.530

famisflorida@gmail.com: I got a lot of questions on that, so I just start out with just put it out there, so you can so everybody can see it, just in case there are others who are wondering.

229

00:39:15.390 --> 00:39:29.310

famisflorida@gmail.com: Disaster effect the students, just like to bring this to your attention, each year, because we see rollovers often from one year to the next, and we want to let you know, this is something that happens within the actual current school year.

230

00:39:30.540 --> 00:39:35.130

famisflorida@gmail.com: I think we finally got gov or spear from 2010 out of reporting.

231

00:39:36.900 --> 00:39:54.090

famisflorida@gmail.com: That was rolling over, and it was like we have another Gulf oil spill so finally we've gotten that out, and we still getting a few earthquakes here, but is for the the actual current reporting year the disaster affect the student data element you don't roll it over.

232

00:39:55.410 --> 00:40:04.440

famisflorida@gmail.com: I brought this to your attention, last year the je je FF lunch report compared to the gq you H public school eligibility title one report.

233

00:40:05.460 --> 00:40:18.330

famisflorida@gmail.com: same data, but one is just focusing on ages five to 17, which is why they don't match, and they should match the G fps for our students, the gpu ages for ages five to 17.

234

00:40:21.060 --> 00:40:22.620

famisflorida@gmail.com: Student attendance reporting.

235

00:40:24.510 --> 00:40:25.680

famisflorida@gmail.com: A miscarrying better.

236

00:40:27.210 --> 00:40:27.690

famisflorida@gmail.com: But.

237

00:40:28.920 --> 00:40:50.790

famisflorida@gmail.com: The finance office has concerns when it's 85% or lower when the percentage that 88% is 85% lower so you have the ability to download this report is on your reports per request menu, and you can look at that, prior to the close of survey 375 these this is.

238

00:40:51.840 --> 00:41:09.120

famisflorida@gmail.com: collected in 73 and five on the prospect status format, but particularly in survey five we want to make sure that you see this data we try to bring it to your attention, as well, but just know that you have the ability to download this report as well, and to be.

239

00:41:10.650 --> 00:41:22.110

famisflorida@gmail.com: Particular we've been we've been trying to make sure that the last few weeks prior to the close of survey five that we check on this report, because every once in a while data will get wiped out.

240

00:41:23.370 --> 00:41:27.000

famisflorida@gmail.com: The district may have submitted a batch and was trying to update something.

241

00:41:27.240 --> 00:41:34.200

famisflorida@gmail.com: And all of a sudden, there are no records for student attendance, so we try to we try to make sure we look at that as much as we can to make sure.

242

00:41:34.410 --> 00:41:43.230

famisflorida@gmail.com: That you have attendance data at the close of the survey, so this is something for you to make a note to make sure that you check on that before the close of survey.

243

00:41:47.910 --> 00:41:58.680

famisflorida@gmail.com: Of course there are links these links to the database website survey data, the 2122 the database manual updates, as I said this.

244

00:41:59.100 --> 00:42:07.530

famisflorida@gmail.com: Big document here let's all of the changes that I talked about and it's marked up in red So you can see, the actual change if that helps you.

245

00:42:08.100 --> 00:42:21.660

famisflorida@gmail.com: It helps me so if that helps you that's there the database user manual a lot of updates what happened there because we had to make sure that we focused on dq to for the staff database, this is no longer.

246

00:42:22.320 --> 00:42:33.330

famisflorida@gmail.com: Report it via the Northwest database is strictly did you too, so there are a lot of updates that need to be done to the user manual so make sure you check out the user manual updates.

247

00:42:34.410 --> 00:42:50.070

famisflorida@gmail.com: And, of course, your district lays on can be found in Appendix a under user manual for you to identify who your direct a point of contact first point of contact is in this office for database issues questions.

248

00:42:51.030 --> 00:42:56.250

famisflorida@gmail.com: Anything else and we'll try to help you get to the person who can answer your inquiry for you.

249

00:42:57.270 --> 00:42:58.710

famisflorida@gmail.com: This is my team.

250

00:42:59.790 --> 00:43:08.010

famisflorida@gmail.com: they're all ready and waiting to assist you we appreciate your questions, because they help us to learn to.

251

00:43:08.340 --> 00:43:18.750

famisflorida@gmail.com: it's all a learning process your questions, because you actually work with the data out there and that helps us to work with the policy people to make sure that the edits and everything else.

252

00:43:19.170 --> 00:43:25.770

famisflorida@gmail.com: Is the way it should be, and to make sure we get quality data from you okay so that's it for me.

253

00:43:34.890 --> 00:43:38.910

famisflorida@gmail.com: And no questions, I mean wow what i'm wow.

254

00:43:40.830 --> 00:43:42.090

famisflorida@gmail.com: first time ever.

255

00:44:09.090 --> 00:44:09.960

famisflorida@gmail.com: Yes, correct.

256

00:44:15.510 --> 00:44:19.020

famisflorida@gmail.com: Steve said well the skills, the best and then the next session.

257

00:44:30.960 --> 00:44:32.400

famisflorida@gmail.com: That was a good question.

258

00:44:33.720 --> 00:44:35.160

famisflorida@gmail.com: Yes, up here katie.

259

00:44:50.910 --> 00:44:51.480

famisflorida@gmail.com: mean.

260

00:44:54.960 --> 00:44:55.860

famisflorida@gmail.com: Not.

261

00:44:57.270 --> 00:44:57.630

famisflorida@gmail.com: All.

262

00:45:01.170 --> 00:45:01.620

famisflorida@gmail.com: three.

263

00:45:04.020 --> 00:45:08.400

famisflorida@gmail.com: What is their brain and you can't report it in survey or.

264

00:45:10.920 --> 00:45:11.850

famisflorida@gmail.com: it'll reject.

265

00:45:16.170 --> 00:45:24.450

famisflorida@gmail.com: I mean that they have not according to the FDA general structures, they have to have a grade and that's not agree to be important.

266

00:45:30.360 --> 00:45:31.110

famisflorida@gmail.com: don't be shy.

267

00:45:35.130 --> 00:45:36.780

famisflorida@gmail.com: Of course i'm happy you don't have to watch.

268

00:45:48.630 --> 00:45:48.870

famisflorida@gmail.com: out.

269

00:45:52.620 --> 00:45:56.310

famisflorida@gmail.com: For the day i'm sorry said again did wrong.

270

00:46:04.440 --> 00:46:12.270

famisflorida@gmail.com: way if they withdrew you know survey for is for completions so if they withdrew that's not a completion.

271

00:46:16.800 --> 00:46:17.040

famisflorida@gmail.com: me.

272

00:46:19.680 --> 00:46:22.830

famisflorida@gmail.com: That I cannot answer, but I can find an answer for you later.

273

00:46:45.870 --> 00:46:46.890

famisflorida@gmail.com: Thank you appreciate.

274

00:47:09.510 --> 00:47:10.170

famisflorida@gmail.com: very nice.
