

WEBVTT

1

00:00:17.250 --> 00:00:34.860

Famis Florida2: Good morning, my name is Tracy holly I am the purity for accountability reporting and I have been in the Office for about 16 years and i've been focused mainly on school grades to start off with, but with a greater focus on band, in the last about three or four years.

2

00:00:36.630 --> 00:00:54.750

Famis Florida2: And today we're going to talk about the cat some accountability updates first we'll go over updates for this current year 2021, including the emergency order, and then we will get into update updates that are coming for the.

3

00:00:56.280 --> 00:01:07.020

Famis Florida2: school year and then a little bit of our about our applications, and then we will get into the key formats and database elements that are used for accountability.

4

00:01:09.720 --> 00:01:10.980

Famis Florida2: and start off with.

5

00:01:12.000 --> 00:01:19.050

Famis Florida2: The emergency order and number 2021 to 02.

6

00:01:27.000 --> 00:01:28.920

Famis Florida2: per emergency order number.

7

00:01:30.690 --> 00:01:46.140

Famis Florida2: E, F 02 school districts or charter school and governing boards may apply to the department to opt in to have one or more 2020 21 school grades or school improvement ratings officially recorded.

8

00:01:46.530 --> 00:01:52.620

Famis Florida2: And reported for all statutory purposes, except as provided in statute.

9

00:01:53.280 --> 00:02:10.470

Famis Florida2: For any school that tests 90% or more of its eligible students within 30 days after the release of all state testing data and the school district or charter school board may apply to the department to opt in to have one or more.

10

00:02:11.970 --> 00:02:20.640

Famis Florida2: School grades or school improvement ratings apply for statutory purposes that are associated with school grades or ratings.

11

00:02:23.250 --> 00:02:27.210

Famis Florida2: process for opting in as a reminder FDA we order number.

12

00:02:29.970 --> 00:02:47.280

Famis Florida2: issued on February 15 2021 extended the testing windows in modified the release dates of the results per the order results for grade three will be made available, no later than June 30, as you all know, they were released a few weeks ago.

13

00:02:48.420 --> 00:03:00.090

Famis Florida2: results for Romanian assessments fsh and ESC will be made available, no later than July 31 once all necessary assessment data are available by the end of July.

14

00:03:00.540 --> 00:03:13.740

Famis Florida2: The Department will provide school districts with an initial calculation without the assignment of A grade or rating beginning which begins the 30 day opt in review application period.

15

00:03:16.440 --> 00:03:26.250

Famis Florida2: In order to make an informed decision during the 30 day review period on whether to opt in districts will be provided with the following.

16

00:03:26.700 --> 00:03:34.410

Famis Florida2: School grades district grades school improvement rating spreadsheets without the assignment of a great or rating.

17

00:03:35.370 --> 00:03:50.880

Famis Florida2: which include percent testing percent of total possible points earned and the value for each component in addition the student level data files, the imdb files used in that calculation.

18

00:03:52.260 --> 00:04:07.710

Famis Florida2: In addition, during the 30 day review period districts, will have the opportunity to review their data and provide any necessary information to ensure the accuracy of the match of student membership records to Student Assessment records.

19

00:04:10.950 --> 00:04:12.570

Famis Florida2: As per FDA we order.

20

00:04:15.150 --> 00:04:23.220

Famis Florida2: For school grades only schools that test at least 90% of their students are eligible to request to opt in.

21

00:04:24.270 --> 00:04:34.950

Famis Florida2: For any school that applies to opt in and tests at least 95% of its students for apple their application will be presumptively approved.

22

00:04:36.570 --> 00:04:44.400

Famis Florida2: For schools that test at least 95 or excuse me for schools that test at least 90% but less than 95%.

23

00:04:45.420 --> 00:04:55.740

Famis Florida2: analysis will be conducted to determine that the performance of the school as calculated accurately represents the progress of the school.

24

00:04:56.760 --> 00:05:06.570

Famis Florida2: For an alternative school to opt in for a school improvement rating the minimum threshold is 80% tested, as provided in State law.

25

00:05:07.980 --> 00:05:18.960

Famis Florida2: If no action is taken no grade or rating will be assigned grades or ratings will only be assigned to those who request them and are approved.

26

00:05:23.040 --> 00:05:33.030

Famis Florida2: The 30 day review application period to opt in will serve the purpose of the traditional appealed appeals period and spring assessment matching when.

27

00:05:34.440 --> 00:05:43.320

Famis Florida2: The process that ensures the accuracy of the match of student membership records to Student Assessment records.

28

00:05:44.490 --> 00:05:57.960

Famis Florida2: The 30 day window will open with a memorandum to superintendents and access to the data described in this presentation necessary to make informed decisions.

29

00:05:59.040 --> 00:06:06.600

Famis Florida2: By late August or early September final grades and ratings for those who request them and are approved.

30

00:06:07.620 --> 00:06:24.570

Famis Florida2: are expected to be published performance data for all schools will be posted on the know your school's nfl.org portal, but grades or ratings will only be assigned for those who opt in and are approved.

31

00:06:29.190 --> 00:06:44.130

Famis Florida2: Bam since amended in 2017 State law made vamp scores purely optional for us in teacher evaluation per State law, the performance of students.

32

00:06:44.700 --> 00:06:58.770

Famis Florida2: component of educators evaluation, which remains a requirement is to be comprised of data and indicators of student performance as determined by each school district.

33

00:06:59.580 --> 00:07:12.420

Famis Florida2: per FDA we order number 2021 easier to three year aggregate Bam scores will be provided to districts, including the most recent three years for which data are available.

34

00:07:12.870 --> 00:07:32.490

Famis Florida2: And to provide maximum flexibility additional them scores based on one or two years of data will also be provided as always districts are under no obligation to use these data in teacher evaluations Bam scores are expected to be available in mid September.

35

00:07:35.280 --> 00:07:37.890

Famis Florida2: graduation with waivers reporting.

36

00:07:39.540 --> 00:07:52.710

Famis Florida2: per F do we order number 2021 years or two districts may wave on a case by case basis, the algebra one end or 10th grade la assessment requirements for students.

37

00:07:53.130 --> 00:08:03.630

Famis Florida2: who are otherwise expected to graduate in the spring of 2021 and whose high school record establishes a comparable level of achievement.

38

00:08:04.560 --> 00:08:17.700

Famis Florida2: For these students, the same reporting code used for similar waivers last year w/o for K 12 students and w/60 for adults high school students should be used again instantly.

39

00:08:18.810 --> 00:08:25.290

Famis Florida2: The definition of these codes will be updated to reflect the language in FDA we order number.

40

00:08:27.120 --> 00:08:41.520

Famis Florida2: 02 a memorandum from Chancellor oliva to superintendents was sent February, excuse me, was sent on Friday may 7 2021 announcing this information.

41

00:08:45.810 --> 00:08:56.790

Famis Florida2: So these are the key things to take away for him is contacts graduation codes w/o w/60 are available to us for the.

42

00:08:58.860 --> 00:09:11.940

Famis Florida2: graduates following the same policies as 2019 20 results for grade three assessments have been made available, the deadline for that was June 30 that was meant.

43

00:09:12.660 --> 00:09:28.080

Famis Florida2: The results for the remaining assessments, but FSA and ESC will be made available, no later than July 31 school grades in school improvement ratings will be released later and only for those that are in.

44

00:09:29.160 --> 00:09:41.760

Famis Florida2: Bam scores will be released in mid September and are still optional for us in district teacher evaluations, there will be no ma'am scores for fourth grade teachers.

45

00:09:42.900 --> 00:09:51.030

Famis Florida2: know your schools Florida will be updated for all schools and for more information, more details on FDA we order number.

46

00:09:53.760 --> 00:10:09.540

Famis Florida2: Please visit the departments current virus web page listed below there those slides are given, along with a couple of others and some Q amp a that I recommend that if you haven't looked at that you go watch that webinar as well.

47

00:10:15.570 --> 00:10:24.630

Famis Florida2: Any questions I may or may not be able to answer them, but if you have questions on what i've just read, we can see if I can answer them.

48

00:10:25.770 --> 00:10:32.520

Famis Florida2: Yes, well hold on if you wait for the microphone we got to make sure that the recording here's your question.

49

00:10:39.030 --> 00:10:51.660

Famis Florida2: So our 30 days starts when you send us the data was formerly correct, so we will once we do our calculations and have the files described in the.

50

00:10:52.080 --> 00:11:05.580

Famis Florida2: Previous slides we will produce those made them available for you and a memorandum will go out from to slowly, but to your superintendents a moment it goes out, we will forward it to our accountability contacts.

51

00:11:08.220 --> 00:11:19.830

Famis Florida2: Yes, percent tested, it will be the excel like if you go look at that excel file right now the only thing that won't be on, there is the great assignments, the rest of stuff will be there.

52

00:11:22.560 --> 00:11:23.730

Famis Florida2: Any other questions.

53

00:11:27.120 --> 00:11:43.170

Famis Florida2: Okay, with that I will move on, so now we're on to accountability changes for 2021 22 will talk about the graduation rate cohort built the clock our dual enrollment and the armed forces qualification test.

54

00:11:45.750 --> 00:11:56.280

Famis Florida2: So, as you all know, with the student database formats changing to having the fly ID be the key identifier, and no longer reporting.

55

00:11:56.640 --> 00:12:05.970

Famis Florida2: The student ID and the alias the way that it has been impact in the past, we had to create a new way to build our.

56

00:12:06.780 --> 00:12:13.680

Famis Florida2: To do our graduation rate cohort built so it's now based on the fly ID key is the key identifier.

57

00:12:14.460 --> 00:12:23.220

Famis Florida2: This new builds reduces the amount of possible changes that districts, will have to make on the cohort corrections process.

58

00:12:23.610 --> 00:12:40.080

Famis Florida2: And it will also reduce the number of students in your unadjusted cohort so you will see a lot less students in your files, how many of y'all we've provided the three year prelim files, how many of y'all have actually looked at those yeah.

59

00:12:41.100 --> 00:12:56.520

Famis Florida2: Okay, so i've got a couple people I know some districts you some some districts don't but so you should have noticed that there's a lot less kids that don't that are in the file that don't get into so your w three days you should have a lot less than three days in your five.

60

00:12:57.570 --> 00:13:02.520

Famis Florida2: Which are that with drew to another district, because we found them in the district and put it in.

61

00:13:03.630 --> 00:13:10.350

Famis Florida2: And so that's one of the big changes we made with this, so it reduces the number of corrections that you'll have to make in the fall.

62

00:13:11.730 --> 00:13:22.200

Famis Florida2: We are still using the federal uniform graduation rate methodology, so all the same business rules on who gets included, are still in place.

63

00:13:24.780 --> 00:13:33.840

Famis Florida2: The and here we go, this is the overview of what the federal uniform graduation my pliers all students have to be accounted for.

64

00:13:34.350 --> 00:13:44.010

Famis Florida2: Only standard deployments are included in the numerator and your wc oh and w 60 will again be considered a graduate.

65

00:13:44.550 --> 00:13:57.690

Famis Florida2: And it does not remove transfers to adult education programs those remain in the last school, they were with and it assigns DJ students back to their most recent Florida public high school.

66

00:14:02.010 --> 00:14:05.010

Famis Florida2: Now, on the clock our dual enrollment and.

67

00:14:06.540 --> 00:14:08.280

Famis Florida2: beginning in the.

68

00:14:10.560 --> 00:14:29.880

Famis Florida2: calculation of school grades, we will be including clock our dual enrollment as an option for your graduates to count in the numerator for the College and career acceleration component so previously, we only included ap IV dual enrollment for college credit.

69

00:14:31.110 --> 00:14:34.020

Famis Florida2: Industry start and as.

70

00:14:35.730 --> 00:14:43.860

Famis Florida2: So this is a new way for students, that may not have those other acceleration measures to be counted positively in the component.

71

00:14:45.120 --> 00:14:49.050

Famis Florida2: Is a graduate receives credit.

72

00:14:50.460 --> 00:14:57.960

Famis Florida2: For or completes 300 hours or more of our dual enrollment then they will be considered.

73

00:15:00.810 --> 00:15:15.990

Famis Florida2: positively in the acceleration component, this will be, in effect, not for the school grades that we're going to release this summer, but the following, which is actually your current graduates the kids that are graduating now.

74

00:15:18.600 --> 00:15:22.020

Famis Florida2: And so we will not have the full impact of this.

75

00:15:25.770 --> 00:15:41.100

Famis Florida2: The first year that we do it, so when we release grades next summer, we will only be including clock our dual enrollments that occurred in the tool 2020 21 school year for those that graduated in the 2021 school year.

76

00:15:42.120 --> 00:15:53.310

Famis Florida2: Each year, we will look at an additional year for those graduates for that year until it becomes in full effect for the.

77

00:15:55.260 --> 00:16:00.810

Famis Florida2: School grades calculation, so the implementation of this as kind of a rolling.

78

00:16:01.860 --> 00:16:02.880

Famis Florida2: implementation.

79

00:16:05.430 --> 00:16:18.480

Famis Florida2: The list o'clock our dual enrollments that we will be using must have must appear on the approved course list a new world was created and approved by the board in June.

80

00:16:18.840 --> 00:16:32.910

Famis Florida2: That identifies which courses are approved to use, they also must be in the same program area, so if you've got clock our dual enrollments that aren't worth 300 credit hours.

81

00:16:33.600 --> 00:16:43.950

Famis Florida2: you've got to have multiple in that same program area in order for it to count again if you have questions about the list or.

82

00:16:44.700 --> 00:16:59.010

Famis Florida2: Anything along the lines as it's related to the courses in the list you can reach out to the division of career and adult education and they will they will be able to answer your questions concerning the specific courses yes.

83

00:17:00.240 --> 00:17:00.510

Famis Florida2: Okay.

84

00:17:01.770 --> 00:17:02.520

Famis Florida2: One second.

85

00:17:16.950 --> 00:17:21.600

Famis Florida2: And you may not know the answer to me that the list is every review.

86

00:17:28.830 --> 00:17:33.840

Famis Florida2: So I do know that the key industry certification list is reviewed, you know eventually.

87

00:17:36.000 --> 00:17:47.370

Famis Florida2: I do not have the answer, and I believe so, but don't hold me to that reach out to the division encourage adult education to confirm.

88

00:17:48.000 --> 00:17:59.940

Famis Florida2: But I believe it will, because I know courses change, like the dual enrollment changes annually, so I would reach out to them to confirm, but I believe it will changing yeah.

89

00:18:03.690 --> 00:18:06.750

Famis Florida2: yeah i'll reach out to them and and work with them.

90

00:18:09.570 --> 00:18:10.920

Famis Florida2: Yes, we got another question.

91

00:18:21.660 --> 00:18:24.390

Famis Florida2: So, this would not be on the.

92

00:18:25.830 --> 00:18:41.550

Famis Florida2: You asked me a direct question so i'm going to give you the direct answer, and so the place that you would traditionally be able to make additional matches are on the College and career acceleration application.

93

00:18:42.810 --> 00:18:53.460

Famis Florida2: However, you can't add any additional things that you didn't report, you can only match what you've already recorded and if you're using the same.

94

00:18:53.850 --> 00:19:05.790

Famis Florida2: SLA ID on survey five that is used on you know basically your graduates then there's nothing for you to do because we've already matched that information.

95

00:19:06.600 --> 00:19:18.750

Famis Florida2: So one thing that will be going out in the next couple weeks is a email letting our district accountability contacts, know that the.

96

00:19:19.140 --> 00:19:28.170

Famis Florida2: Because of the increase in data accuracy for the College and career acceleration data, so the API as dual enrollment.

97

00:19:28.710 --> 00:19:40.140

Famis Florida2: we've had one district, who has used the application consistently the last three years, the rest of the districts have only used like we've had maybe.

98

00:19:40.500 --> 00:19:48.240

Famis Florida2: Four or five very few districts, or even using that application and they're only using it to change, maybe one or two or three kits.

99

00:19:48.690 --> 00:20:06.690

Famis Florida2: So what we are planning on doing is canceling that application now so that's a lot less work for you all a lot less work for us, so what that means is for things that when we give you the College and career acceleration imdb file and you.

100

00:20:07.710 --> 00:20:20.940

Famis Florida2: see that there's something that didn't get matched that you wanted to get merged, or you know there's additional information, we would now review that during the appeals process, we also have some time between.

101

00:20:21.990 --> 00:20:28.230

Famis Florida2: When we give you that file and we actually release so those type of things like will you have a chance to correct it.

102

00:20:28.680 --> 00:20:36.450

Famis Florida2: Those type of things will be able to be done during or submitted for requests during the appeals process we we actually implement this.

103

00:20:37.080 --> 00:20:48.060

Famis Florida2: But the College and career acceleration application it's a lot of work for us to get that up and running, and if you all have done such a phenomenal job.

104

00:20:48.330 --> 00:21:02.730

Famis Florida2: At reporting your acceleration data that's used for the calorie college and career acceleration component that we feel that the amount of changes that could be made should be done through the appeals process.

105

00:21:05.310 --> 00:21:17.760

Famis Florida2: Yes, absolutely so so what that process right now what we normally do is, I believe justin and my team provide you all with files on share files during the survey five reporting.

106

00:21:18.210 --> 00:21:32.550

Famis Florida2: And we will be doing that, with this information as well i'm not sure how it's going to look, because we need to because you've got that there's that three hour component so worth excuse me 300.

107

00:21:34.770 --> 00:21:49.110

Famis Florida2: block our dual enrollment so, so we will provide something for you during the survey five reporting and then we will be able to provide the actual Grad rate and college and career acceleration imdb file earlier.

108

00:21:49.530 --> 00:21:58.440

Famis Florida2: We provide we've provided it early this year we will provide it ahead of time as well, next year, so that you will have plenty of time to review it.

109

00:21:59.880 --> 00:22:05.370

Famis Florida2: So my last question and reference the appeals are you.

110

00:22:07.590 --> 00:22:11.760

Famis Florida2: Saying that we should we should be doing the appeal or the revelation.

111

00:22:12.960 --> 00:22:19.230

Famis Florida2: So it would be the school grades appeals, because you can't write, because you can't technically appeal Grad right.

112

00:22:21.210 --> 00:22:21.570

Famis Florida2: Yes.

113

00:22:25.020 --> 00:22:25.500

Famis Florida2: yeah.

114

00:22:29.850 --> 00:22:42.570

Famis Florida2: Okay, any other questions about clock our dual enrollment and you also our plan was to send out an email in the next couple weeks, but I couldn't answer that question without telling y'all what was going on.

115

00:22:43.740 --> 00:22:48.720

Famis Florida2: So we should be sending out an email to the district accountability contacts.

116

00:22:50.220 --> 00:22:55.680

Famis Florida2: letting them know about the application being cancelled, I can see some of my contacts in here too, so.

117

00:23:00.090 --> 00:23:03.960

Famis Florida2: Okay now on to as that and Jerry etc.

118

00:23:05.070 --> 00:23:06.930

Famis Florida2: So, as you all know.

119

00:23:08.070 --> 00:23:22.020

Famis Florida2: A bill was passed, not this last session, but before that he allows us to include the armed services qualification test score as an option for as a way to.

120

00:23:22.830 --> 00:23:38.280

Famis Florida2: Get college and career acceleration credit, and this will begin with the school grades released in 2023 so currently this survey five coming up for 2021.

121

00:23:39.120 --> 00:23:51.330

Famis Florida2: You all are not able to report the as the assessments, however that's one of the things that has changed is in 2122 you will be able to report this information on survey five.

122

00:23:53.670 --> 00:24:11.070

Famis Florida2: So the criteria is that in a graduate must earn a armed versus services qualification test score that falls within the category two or higher on the armed services vocational aptitude battery.

123

00:24:12.390 --> 00:24:12.900

Famis Florida2: assessment.

124

00:24:14.460 --> 00:24:26.310

Famis Florida2: which has a score of 65 or higher, they must also have at least two credits and J rotc courses in the same branch of the armed forces.

125

00:24:28.500 --> 00:24:41.850

Famis Florida2: So this will be fully implicit will be implemented in the 2022 23 school grade cycle, which is the 2021 22 graduates.

126

00:24:43.890 --> 00:24:45.480

Famis Florida2: see it.

127

00:24:48.690 --> 00:24:58.650

Famis Florida2: Okay, so, as I mentioned, you all the districts are responsible for collecting these scores and reporting them on survey five, starting with.

128

00:25:00.900 --> 00:25:01.770

Famis Florida2: survey by.

129

00:25:03.090 --> 00:25:20.400

Famis Florida2: you'll be able to record if you all look at appendix out as babs been on there for a while, but there is now a specific one that is for the armed forces qualification test score, it is the content coat QC and so that is the one we're looking for.

130

00:25:21.750 --> 00:25:32.370

Famis Florida2: And it is on the Student Assessment format now those y'all know that Student Assessment format my understanding, you can only report that single year you can't report prior test scores.

131

00:25:32.790 --> 00:25:54.870

Famis Florida2: So what we're going to do is that if you've got a 2021 graduate that is in the cohort and using that college and career acceleration component that took the arm versus qualification test score means the rotc qualifications as well, but they took the test say this year.

132

00:25:56.040 --> 00:26:15.000

Famis Florida2: We will wouldn't be able to report that, however, you will be able to submit that to us during the appeals process and so until we have four years of reporting on this you all, will be able to submit those test scores that you can't report to us during the appeals process.

133

00:26:16.440 --> 00:26:27.090

Famis Florida2: And so, if it makes a difference in the grade, then you know that is something that we would expect you all to appeal, yes, we got a question over here if you'll wait for my please.

134

00:26:34.410 --> 00:26:42.780

Famis Florida2: So is there a specific timeline or, of course, is to maintain it and tessa let's say, for instance, because students that are very graphic and.

135

00:26:44.700 --> 00:26:45.540

Famis Florida2: They are.

136

00:26:46.620 --> 00:26:49.320

Famis Florida2: leaving their freshman sophomore year and.

137

00:26:50.490 --> 00:26:55.500

Famis Florida2: They now take the test the seniors for them, or do they have to be rolled into.

138

00:26:56.520 --> 00:26:59.910

Famis Florida2: The year they're taking the test so.

139

00:27:01.260 --> 00:27:16.680

Famis Florida2: I do not know if there are any restrictions that as bad or day rotc put on when they can take the test as far as in so if they are I would I would look into that and see what they recommend.

140

00:27:17.850 --> 00:27:23.190

Famis Florida2: Because if they say the test has to be taken within the same time as the courses that I don't know.

141

00:27:25.020 --> 00:27:28.020

Famis Florida2: Anything that are enrolled in our program got it.

142

00:27:29.760 --> 00:27:44.460

Famis Florida2: Okay, great we will accept anything that happens within that for years, so if the first two years they take the courses and then senior year they take the test if they qualify then that's what we're looking for.

143

00:27:45.870 --> 00:27:53.550

Famis Florida2: So we do not put restrictions on that as long as it's now if they do something middle school that's not going to count it's got to be within the four years of that cohort.

144

00:27:55.980 --> 00:28:13.890

Famis Florida2: Can you repeat what you just said about testing, then the current year, so starting next year will report as or yes, and then we need to track for the next four years, that was the students that have got a qualifying.

145

00:28:15.630 --> 00:28:17.370

Famis Florida2: And now, so.

146

00:28:18.570 --> 00:28:26.430

Famis Florida2: So in 2021 you'll report your the tests that you've got for all the kids that took the test at that point.

147

00:28:27.600 --> 00:28:31.230

Famis Florida2: Those and we'll use that for the graduates.

148

00:28:33.120 --> 00:28:35.880

Famis Florida2: The implementation of this.

149

00:28:36.840 --> 00:28:45.300

Famis Florida2: Anything that happens outside of that reporting here like next year you'll be able to report to year you'll be able to report the next year, so we'll have two years of data.

150

00:28:45.540 --> 00:28:54.330

Famis Florida2: For the following years graduates and so like what the clock our dual enrollment it's taking an implement it takes a while to implement the full four years.

151

00:28:54.960 --> 00:28:59.670

Famis Florida2: This will take a while to implement the full four years, however, because.

152

00:28:59.970 --> 00:29:16.800

Famis Florida2: This is a specific assessment that has hat it's like there's nothing new about that assessment there's nothing new it's that's the category to it's existed, we are allowing that assessment to be retroactive so if you've got a graduate that's graduating in the.

153

00:29:18.060 --> 00:29:21.120

Famis Florida2: school year that took the test last year.

154

00:29:22.260 --> 00:29:27.450

Famis Florida2: and meets the rts J rotc requirements, you can appeal that information.

155

00:29:28.650 --> 00:29:29.370

Famis Florida2: So you.

156

00:29:30.540 --> 00:29:38.460

Famis Florida2: Try and capture them and the acceleration will have to do that or the appeal process.

157

00:29:39.540 --> 00:29:43.590

Famis Florida2: Only for those for which you have not been able to report the data for.

158

00:29:48.810 --> 00:29:49.770

Famis Florida2: Okay, so far.

159

00:29:51.390 --> 00:30:03.780

Famis Florida2: And I understand the rollout so we have students that actually take it down DC there were other districts, who was fighting for the data tcp.

160

00:30:05.550 --> 00:30:17.340

Famis Florida2: Acceleration I will tell you that, and I think it's a great thing, however i'm concerned about is having to have all those appeals okay so actually, we can only capture those students that are.

161

00:30:18.480 --> 00:30:23.910

Famis Florida2: Taking the desk during the 2122 square correct yes.

162

00:30:25.260 --> 00:30:28.050

Famis Florida2: So during this survey time.

163

00:30:29.520 --> 00:30:32.340

Famis Florida2: We will have to record those cans for.

164

00:30:34.050 --> 00:30:34.170

Famis Florida2: The.

165

00:30:36.120 --> 00:30:49.470

Famis Florida2: survey that you can't be right next year next year next year's so either 22 this summer going to get and then we will report just those get integrated senior year anybody else and as stated that graduating class and.

166

00:30:51.060 --> 00:30:55.650

Famis Florida2: Sarah we would have to have them he'll even hours yeah this is.

167

00:30:56.340 --> 00:31:08.490

Famis Florida2: Yes, yes, now keep in mind, you only have to do that if they aren't taking any other acceleration measures you can't get multiple credit so, for example, we were talking over here.

168

00:31:08.730 --> 00:31:14.880

Famis Florida2: About a kid who took Jay rotc courses in freshman and sophomore year and then to dual enrollment.

169

00:31:15.150 --> 00:31:22.020

Famis Florida2: Well, if they got C or higher on dual enrollment you don't need their J rotc because it's not going to add any points to.

170

00:31:22.350 --> 00:31:30.450

Famis Florida2: That, so it is going to will Whittle it down to only those that don't have any college and career acceleration credit.

171

00:31:31.260 --> 00:31:34.140

Famis Florida2: But you'll also have the imdb file earlier.

172

00:31:34.590 --> 00:31:47.430

Famis Florida2: So I mean that file once the normally we have that file the application normally opens in February, so instead of an application opening you would get that imdb in February so you'd have plenty of time to.

173

00:31:47.850 --> 00:31:56.610

Famis Florida2: review those that don't have acceleration credit just leave behind and districts that out of those as economic high schools.

174

00:31:58.140 --> 00:32:08.280

Famis Florida2: That have programs in it, those kids are not taking that there yet right, so we will get our numbers that's going to increase request or DJ data.

175

00:32:09.450 --> 00:32:10.410

Famis Florida2: doesn't make a difference.

176

00:32:13.830 --> 00:32:20.790

Famis Florida2: yeah and we do have right so we've got we have the jr OTC.

177

00:32:22.710 --> 00:32:34.140

Famis Florida2: Information because that's been reported for courses so there's something that we can do, possibly provide a file that says here are your kids that don't have.

178

00:32:36.060 --> 00:32:42.930

Famis Florida2: college and career acceleration that do have the two years of jr OTC in the same branch.

179

00:32:43.950 --> 00:32:47.940

Famis Florida2: That would probably be helpful, is to have you on little through.

180

00:32:49.320 --> 00:32:51.840

Famis Florida2: So that is something that I can.

181

00:32:52.920 --> 00:33:00.000

Famis Florida2: reach out to my staff now y'all are going to get email them today, and my staff is going to be like wait What did she promise.

182

00:33:01.980 --> 00:33:09.510

Famis Florida2: So getting give me about a week to know before you start emailing my staff about it, so I can let them know.

183

00:33:10.740 --> 00:33:24.150

Famis Florida2: But if that is something that we should be able to do fairly easily, even if it's just put the jr OTC courses on the imdb file so know that that's something that we can do.

184

00:33:25.800 --> 00:33:32.280

Famis Florida2: You can excuse me for 35 days for us as.

185

00:33:33.600 --> 00:33:36.750

Famis Florida2: It is responding funding.

186

00:33:40.920 --> 00:33:50.340

Famis Florida2: That, I do not know for funding, you would need to talk to finance an operation i'm not aware of how the funding works for those.

187

00:33:56.280 --> 00:34:00.120

Famis Florida2: Okay, moving on to the next slide that I think this is what y'all really want to see.

188

00:34:01.950 --> 00:34:10.350

Famis Florida2: His contact information, so I did some digging if you don't already have a contact in a way to receive.

189

00:34:10.800 --> 00:34:25.830

Famis Florida2: The specific arms forces qualification test for for your entire district, you can reach out to Erica Sullivan, who is a as a career exploration program contact that I found.

190

00:34:26.760 --> 00:34:31.770

Famis Florida2: I was excited because when I reached out to her, she knew exactly what I was talking about.

191

00:34:32.760 --> 00:34:42.030

Famis Florida2: And said, there is a process as far as like the district's can make a formal request tell her what you need.

192

00:34:42.510 --> 00:34:48.480

Famis Florida2: Because tell her what you're looking for the Statute, the rule, and they will be able to provide you with.

193

00:34:48.750 --> 00:35:05.100

Famis Florida2: A list of schools in your district like you provide her hey I need the as bad scores for students in these schools and she'll be able to provide that back to you, but they can only do it at the district level and the main offices, the only one that can provide a.

194

00:35:07.200 --> 00:35:09.240

Famis Florida2: A district file to the district.

195

00:35:10.260 --> 00:35:18.180

Famis Florida2: That is the information I have some of you all may already have gotten this under control, but this is the help that I can provide.

196

00:35:20.730 --> 00:35:22.710

Famis Florida2: So we should probably.

197

00:35:24.240 --> 00:35:25.260

Famis Florida2: try again.

198

00:35:26.730 --> 00:35:27.330

Famis Florida2: here.

199

00:35:28.830 --> 00:35:32.430

Famis Florida2: I I would recommend doing that yes.

200

00:35:35.160 --> 00:35:50.640

Famis Florida2: I do know from what i've researched it's my understanding that some of the schools actually do receive the information like on a print out or things like that, but this is a way for you to get your entire districts information.

201

00:35:52.110 --> 00:36:03.090

Famis Florida2: And so, make sure that when you talk with her that you're requesting that armed forces qualification test for that they can be used to determine whether or not the student falls into category to.

202

00:36:09.090 --> 00:36:17.130

Famis Florida2: um I read one request this year and the previous two years.

203

00:36:22.350 --> 00:36:22.680

Famis Florida2: desert.

204

00:36:25.260 --> 00:36:27.390

Famis Florida2: You guys can request that information straight.

205

00:36:34.080 --> 00:36:35.160

Famis Florida2: So.

206

00:36:40.050 --> 00:36:46.890

Famis Florida2: My understanding is she will only provide these to the districts and so that is the route that we're going.

207

00:36:48.360 --> 00:36:56.070

Famis Florida2: It is also we used to I don't know how many of y'all have been around since we started using API be nice.

208

00:36:57.180 --> 00:37:03.780

Famis Florida2: Okay, so y'all know how, when we got the information from the actual vendors it kind of got messy.

209

00:37:04.440 --> 00:37:22.530

Famis Florida2: And so, now that you all have that, and you all, are able to report it to the district it's a lot cleaner and so while sometimes it may seem easier for us to get it, it becomes a lot cleaner when you all get it and reported to us because, then you are telling us which kids meet these criteria.

210

00:37:25.830 --> 00:37:28.500

Famis Florida2: Any other questions on as that.

211

00:37:30.300 --> 00:37:35.700

Famis Florida2: Okay, so here's the timeline slide that talks about as that and.

212

00:37:36.930 --> 00:37:38.760

Famis Florida2: clock our dual enrollment.

213

00:37:40.110 --> 00:37:56.670

Famis Florida2: clock our dual enrollment will start its implementation into school grades, with the summer of 2022 and we'll have a rolling implementation with full impact in four years.

214

00:37:57.870 --> 00:38:05.130

Famis Florida2: The, as that will start reporting with the 2021 22 school year.

215

00:38:07.500 --> 00:38:13.650

Famis Florida2: It will show up in school grades for the summer of 23.

216

00:38:14.970 --> 00:38:24.930

Famis Florida2: And will be the students will be appealed for the next few years until you're able to report all four years.

217

00:38:27.450 --> 00:38:36.210

Famis Florida2: We did do rural development workshops rules we're past that now include this So if you go look at our school grades role it's in there.

218

00:38:37.770 --> 00:38:43.440

Famis Florida2: And so we will start these two over the next couple months.

219

00:38:46.650 --> 00:38:49.800

Famis Florida2: Now, on to our applications um.

220

00:38:51.390 --> 00:38:57.240

Famis Florida2: So I have college and career acceleration up here because I wasn't planning on announcing its removal yet.

221

00:38:58.380 --> 00:39:04.200

Famis Florida2: But again, that, as I was going to do this big email like next week, when I got back to the office.

222

00:39:05.520 --> 00:39:11.160

Famis Florida2: So that application will no longer be there and how many of y'all work on these applications.

223

00:39:12.540 --> 00:39:18.510

Famis Florida2: So those of you that don't your district accountability contact is responsible for this.

224

00:39:19.470 --> 00:39:32.880

Famis Florida2: They may ask for help in one way or another, but basically we get survey data we put it out on these applications and districts are allowed to provide additional information that we need to match provide.

225

00:39:34.020 --> 00:39:46.380

Famis Florida2: updates on withdrawals that happen after survey three and before testing and provide information on enrollment for ios sees as far as a kid with jury from an emc and then of course the.

226

00:39:47.760 --> 00:39:55.620

Famis Florida2: adjustments that can be made to the graduation rate cohort corrections with this application, there is a lot of leeway.

227

00:39:56.160 --> 00:40:13.770

Famis Florida2: As far as including kids that are maybe are promoted or removing kids should be in the next year's cohort so there's a lot more leeway with graduation rate because that's a over four year period of time that we're combining data from those four years.

228

00:40:15.000 --> 00:40:17.970

Famis Florida2: And there are some things that we can pick up and some things that we can't.

229

00:40:19.110 --> 00:40:24.690

Famis Florida2: So there's a lot more things to do with that application than there are in the others.

230

00:40:26.760 --> 00:40:27.540

Famis Florida2: Okay.

231

00:40:30.030 --> 00:40:42.150

Famis Florida2: let's see the assessment of the accountability match process is one in which that actually isn't an application, that is, during the survey reporting period for survey to answer basically.

232

00:40:42.630 --> 00:40:55.350

Famis Florida2: We provide files to the accountability contacts that basically tell them, these are the kids we're going to include accountability, these are the kids that we dropped, because they didn't have a course.

233

00:40:55.650 --> 00:41:07.260

Famis Florida2: or they withdrew or they didn't have matching district of instruction or and destructive enrollment so we provide a whole bunch of information.

234

00:41:07.980 --> 00:41:14.880

Famis Florida2: That hopefully you all get back and say Okay, I need to make these you know they could come to you and say hey.

235

00:41:15.300 --> 00:41:30.180

Famis Florida2: Why didn't this have a kid have a course oh okay yeah we forgot that let's put this in here how to get this down, but hopefully ideally it helps you all with reporting accuracy of survey three and survey to.

236

00:41:31.650 --> 00:41:33.390

Famis Florida2: For the purposes of accountability.

237

00:41:37.710 --> 00:41:42.060

Famis Florida2: roster verification tool is another one that we have another application that we have.

238

00:41:44.130 --> 00:42:01.860

Famis Florida2: Florida statute requires districts, to provide instructional personnel, with the opportunity to review their class rosters this tool is the state's way of assisting in that requirement some districts using some districts.

239

00:42:04.590 --> 00:42:19.050

Famis Florida2: It is eventually used for if a district chooses to use it, it is used for our final Bam files at the district chooses not to use it, we use final survey data for.

240

00:42:20.370 --> 00:42:20.820

Famis Florida2: Veil.

241

00:42:21.870 --> 00:42:26.730

Famis Florida2: We do this twice a year once with survey two and once with survey three.

242

00:42:27.930 --> 00:42:32.520

Famis Florida2: Anything that a district, so if a district chooses to use our vt.

243

00:42:34.560 --> 00:42:51.570

Famis Florida2: Any changes that are made in our vt if they need to be made on the actual survey you still have to make the change on before final survey window is the rv T does not talk to final serving data.

244

00:42:54.030 --> 00:43:04.560

Famis Florida2: See whichever and again whichever method is choose whether you choose to use final data for Bam files or RPT for vm files that's what we end up doing.

245

00:43:06.000 --> 00:43:11.400

Famis Florida2: And Andre mentioned this morning about some applications that are not in sso.

246

00:43:12.420 --> 00:43:13.380

Famis Florida2: This this one.

247

00:43:14.670 --> 00:43:26.520

Famis Florida2: This is one that we are working to we've got a whole development of how we want to revamp this application, how many of y'all actually work with the Van files.

248

00:43:27.420 --> 00:43:34.440

Famis Florida2: Okay, so y'all are familiar with these excel files and the text files that we back and get back from you outside of the RPT process.

249

00:43:34.860 --> 00:43:49.350

Famis Florida2: We are hoping to revamp this application such that all of those additional processes that happen rv after our vt are included in the application itself, and so you would be able to do them.

250

00:43:50.190 --> 00:44:08.760

Famis Florida2: On to that final student file that you get working it won't happen this year but we're hoping for the following year, to be able to incorporate this into sso and make it a lot easier for districts to do some of the other processes is well but.

251

00:44:11.850 --> 00:44:12.960

Famis Florida2: So.

252

00:44:14.250 --> 00:44:20.100

Famis Florida2: 2122 the school year so we've got at least one more round of it, the way it is.

253

00:44:21.750 --> 00:44:33.030

Famis Florida2: they're doing some chain Andre talked about some ssl stuff that's going on, we gotta wait until some of the stuff that he's doing first and, once he gets that done then we'll be able to move at this into ssl.

254

00:44:36.300 --> 00:44:44.760

Famis Florida2: And when we do all those give us an excel file give us a fixed with text file, all that will be incorporated into the application.

255

00:44:50.040 --> 00:45:00.960

Famis Florida2: Now, on to the key reporting formats and data based elements that are used for accountability, so we have.

256

00:45:03.660 --> 00:45:09.510

Famis Florida2: we've got them we've got school grades we've got school improvement ratings.

257

00:45:10.530 --> 00:45:13.020

Famis Florida2: And we've got DJ accountability rating.

258

00:45:14.070 --> 00:45:28.650

Famis Florida2: So we've got basically four different accountability systems that we get survey data from use our application we get we pull survey data for these applications and for our calculations.

259

00:45:31.050 --> 00:45:32.670

Famis Florida2: Am I over time, yes.

260

00:45:35.130 --> 00:45:43.170

Famis Florida2: Okay, so i'm going to run through these really quick um so our cohort Grad rate builds.

261

00:45:44.520 --> 00:46:07.590

Famis Florida2: We use five years of data with five different formats, to be able to build that single file we've listed them out here, so please do pull down the application pull down the PowerPoint and you'll be able to see each one lists, this is all survey five so graduation rate is all survey five.

262

00:46:09.210 --> 00:46:17.940

Famis Florida2: And so list each different format and the different database elements that were pulling that get incorporated into this.

263

00:46:19.440 --> 00:46:29.400

Famis Florida2: Some of the things like federal state indicator you'll see okay well, what does the hope homeless students I didn't vacation have to do with right right, well, we have to actually report.

264

00:46:29.880 --> 00:46:37.140

Famis Florida2: This subgroup to the fence so some of this stuff that you'll see that you're like well how's that us, we have to report it.

265

00:46:38.940 --> 00:46:41.580

Famis Florida2: We have to report it in some way for federal reporting.

266

00:46:44.010 --> 00:46:50.610

Famis Florida2: college and career acceleration, you can see Student Assessment there's read this is where, as I will be reported.

267

00:46:52.980 --> 00:47:10.950

Famis Florida2: Then we've got the accountability match process we've got student demographic are exceptional student format English language learners information prior school status student attendance and federal state indicator status, we also use student course schedule.

268

00:47:12.990 --> 00:47:21.690

Famis Florida2: Do you DJ accountability ratings, I know, DJ is really star we finally released, our first round of official ratings recent link.

269

00:47:23.400 --> 00:47:34.080

Famis Florida2: Here the database elements that we use so if you're not familiar with that take a look at these next few slides when you get a chance, and it will I went the wrong way.

270

00:47:35.790 --> 00:47:53.760

Famis Florida2: And it will give you information on in or we have to have accurate data for accurate accountability purposes, so this gives you what you need this is what we need to be accurate, this is what we are expecting to be correct, so that we can have correct accountability calculations.

271

00:47:57.450 --> 00:48:06.300

Famis Florida2: Then we've got the Van this is for the data that we pull and that's used for our beauty and then our final match a final band match files.

272

00:48:08.670 --> 00:48:20.070

Famis Florida2: And here are resources, and so, if you have any questions, please reach out to my office.

273

00:48:22.290 --> 00:48:35.490

Famis Florida2: here's a whole bunch of resources y'all if you want to look at a school know your schools Florida is amazing it's got lots of great information it's got some great fine visuals too.

274

00:48:36.780 --> 00:48:44.490

Famis Florida2: So if you have any questions, please feel free to reach out to me to my staff, you know we'd be happy to answer any questions you've got.
