

WEBVTT

1

00:00:15.870 --> 00:00:16.920

Famis Florida2: Good afternoon.

2

00:00:18.449 --> 00:00:36.180

Famis Florida2: Thank you all for coming to my presentation and my name is Catherine wheeler and I work for the Florida Department of Education, I am the Cape industry certification manager and i'm so happy to be here at a real conference in real life, and not on zoo.

3

00:00:39.180 --> 00:01:02.640

Famis Florida2: So I have a lot to cover today so i'm going to ask that, if you have questions that you hold them till the end of my presentation and Danny will come around with a microphone so that we can all hear your question, I do have a handout circulating that i'll refer to later in the presentation.

4

00:01:03.660 --> 00:01:15.000

Famis Florida2: So let's get started today i'm here to talk about keep reporting, there are two main things that get reported for Cape, and that is.

5

00:01:15.330 --> 00:01:30.030

Famis Florida2: Kate academy enrollment both at the middle school level and the high school level and course performance data for industry certifications and assessments that those attempted earned and then Cape innovation outcomes.

6

00:01:30.930 --> 00:01:47.970

Famis Florida2: are topics for today include reporting requirements and resources data reporting overview FP FP funding issues important data reports and a very special section entitled why wasn't this funded.

7

00:01:51.090 --> 00:01:56.400

Famis Florida2: So let's start out with the reporting requirements and resources.

8

00:01:57.900 --> 00:02:08.160

Famis Florida2: These are some pieces of information that are found on the industry certification format district in school numbers student identifiers.

9

00:02:09.210 --> 00:02:11.640

Famis Florida2: grade level school year course number.

10

00:02:13.050 --> 00:02:16.050

Famis Florida2: You have a lot of industry certification.

11

00:02:17.100 --> 00:02:18.840

Famis Florida2: elements in here.

12

00:02:20.430 --> 00:02:31.920

Famis Florida2: Local state ID number, and then the important dependencies valid codes and appendix why and valid codes and appendix Z.

13

00:02:34.980 --> 00:02:43.440

Famis Florida2: For Federal and State indicator status, there are two elements and that's keep reporting for.

14

00:02:44.520 --> 00:02:52.890

Famis Florida2: The career and professional academy identifier, and the career and professional either academy identifier first and second.

15

00:02:57.030 --> 00:03:05.460

Famis Florida2: There are three main dependencies associated with keep reporting and that's appendix Z appendix why and appendix.

16

00:03:06.750 --> 00:03:16.530

Famis Florida2: appendix Z has that unique eight digit code for the industry certification appendix, why is for Cape academies.

17

00:03:17.160 --> 00:03:34.080

Famis Florida2: Its unique identifier, is that three digit number assigned with each came academy and appendix FF is all career themed courses and industry certifications registered by that district, and this is what is used for FP FP funding eligibility.

18

00:03:36.390 --> 00:03:47.100

Famis Florida2: So on the appendix Z industry certification identifier that main unique field is that industry certification identifier.

19

00:03:47.730 --> 00:03:55.770

Famis Florida2: also has the industry certification title certifying agency name if it's school grades eligible.

20

00:03:56.220 --> 00:04:07.260

Famis Florida2: If it's Perkins technical well we don't call it technical skills and team anymore it's Perkins five eligible and additional FT eligible under statute.

21

00:04:07.770 --> 00:04:18.240

Famis Florida2: And the type if it's a Type one is industry certification Type two is Cape acceleration industry certification three is digital tool certificate.

22

00:04:19.740 --> 00:04:41.490

Famis Florida2: If there is a differentiated we were of certification requirements in the week for the CFP calculation, so we do update this throughout the year, and that is primarily because, once the Cape list is adopted any new industry certifications that are included on their go to be reviewed.

23

00:04:42.690 --> 00:04:47.670

Famis Florida2: To see if they're eligible for an articulation agreement for.

24

00:04:48.990 --> 00:04:59.460

Famis Florida2: Towards a specific degree program and the Florida college system, and if the funding weight changes on that industry certification that might go back later in the update a pending see.

25

00:05:01.650 --> 00:05:19.470

Famis Florida2: appendix, why is the tape academies dependencies, and this includes middle school and high school Cape academies that unique field that's on, there is the Academy identifier, which is a three digit code that's assigned with that category is register.

26

00:05:23.010 --> 00:05:34.200

Famis Florida2: And appendix FF This is all the courses that the district registers, with all of the certifications that could be earned in that career seem to force.

27

00:05:35.430 --> 00:05:46.050

Famis Florida2: A career themed horse horse or a course in a series of courses that lead to an industry certification on the cake industry certification funding list.

28

00:05:46.680 --> 00:05:54.510

Famis Florida2: And all of the certifications and courses that are on here are the ones that will be eligible for funding.

29

00:05:54.870 --> 00:06:08.820

Famis Florida2: This appendix includes the district number name that's goal number name course number an indicator if it's a dual enrollment course number and all the certifications you can register up to 15 with each course.

30

00:06:11.190 --> 00:06:15.240

Famis Florida2: Okay, so let's talk about the data reporting overview.

31

00:06:16.620 --> 00:06:33.270

Famis Florida2: This is the standard data reporting cycle survey to takes place in October, and that is when you report career and professional academy identifier on the Federal and State indicator status format.

32

00:06:33.810 --> 00:06:40.560

Famis Florida2: said during survey three you also report career and professional academy and identifier on that format.

33

00:06:40.950 --> 00:06:53.820

Famis Florida2: survey five which is July through October is when you report career professional academy identify are on two formats, the Federal State indicator status and industry certification.

34

00:06:54.420 --> 00:07:01.560

Famis Florida2: And in this you report industry certifications and certificates that are earned and attempted on the industry.

35

00:07:02.310 --> 00:07:14.580

Famis Florida2: Certification format, including the industry certification identifier, and the outcome, and then you also report student performance and Cape innovation courses, if your district is using those.

36

00:07:18.000 --> 00:07:33.420

Famis Florida2: We have three main types of industry certifications included on the last one is Kate digital tool certificates, those are first students in grades K through eight and they're rated at a point 025.

37

00:07:34.260 --> 00:07:55.710

Famis Florida2: FT each Cape industry certifications are for students in grades six through 12 they can be a point one or a point to F T and Cape acceleration industry certifications are also for six through 12 students, but they have a much higher funding weight, due to the number of.

38

00:07:56.880 --> 00:08:03.840

Famis Florida2: articulation the number of college credits that are articulated through those, and so they are funded at point five or 1.0.

39

00:08:07.770 --> 00:08:26.730

Famis Florida2: So what is reported on the industry certification format outcomes for all Cape certifications and digital tool certificates your outcomes for keep innovation courses and any other Perkins attainment accountability measures on Appendix Z.

40

00:08:29.370 --> 00:08:33.420

Famis Florida2: So tape course reporting requirements.

41

00:08:34.590 --> 00:08:40.470

Famis Florida2: You would report the course number in which the student attempted or earned the industry certification.

42

00:08:40.740 --> 00:08:56.130

Famis Florida2: The course numbers, maybe a report recorded for digital tool certificates, but they are not required if you have a student who's in K through five I believe it's not possible to report of course numbers that you would enter all zeros and that field.

43

00:08:57.210 --> 00:09:07.800

Famis Florida2: And for tape acceleration industry certifications if the courses a career education course a valid CTE program code must be reported.

44

00:09:11.760 --> 00:09:22.950

Famis Florida2: So especial note on reporting dual enrollment courses on that I industry certification format report only certification that was attempted in the course.

45

00:09:23.220 --> 00:09:31.110

Famis Florida2: This format cannot be used to report post secondary dual enrollment course information for students who did not attempt an industry certification.

46

00:09:31.530 --> 00:09:45.030

Famis Florida2: Dual enrollment students may be funded in the FP FP under certain circumstances, the certification cannot be funded fundable, and another post secondary appropriation So if you have.

47

00:09:46.380 --> 00:09:50.550

Famis Florida2: A student who earns an industry certification that's on both lists.

48

00:09:51.870 --> 00:10:03.690

Famis Florida2: And their their dual enrolled typically you would get funded through the post secondary list and that's what you want, because you probably end up getting more money that way, we do have.

49

00:10:05.340 --> 00:10:25.440

Famis Florida2: Like a system where, if you have a student that you report and that CFP as earning a K post secondary certification, we have a system that will check for that, so you won't be funded, for it in the FP FP will be funded, for it was secondary.

50

00:10:32.460 --> 00:10:43.950

Famis Florida2: element for identifying dual enrollment funding eligibility dual enrollment type, this is used to determine whether a certification earned through dual enrollment is fundable.

51

00:10:44.610 --> 00:11:00.600

Famis Florida2: districts will identify the post secondary institution in which the dual enrollment occurred, if it was a district technical Center or a charter technical Center fcs institution, a non public institution or State University.

52

00:11:03.030 --> 00:11:11.490

Famis Florida2: Reporting outcomes, the data element is industry certification outcome, the final outcome is what is reported for industry.

53

00:11:12.120 --> 00:11:27.690

Famis Florida2: Certification if the student took the certification more than once, only report, the outcome of the final attempt and for reporting Cape and digital tool certificates P, is for pass F is for sale.

54

00:11:31.770 --> 00:11:51.000

Famis Florida2: For tape innovation courses, the certification code, for that is tape by 001 districts are required to report on all outcomes, even if a student did not take the advanced placement assessment or the industry certification exam.

55

00:11:53.340 --> 00:12:10.530

Famis Florida2: A P would be entered if the student and passed all of the required assessments both academic and the industry certification for that course, and this is a schedule of the reporting outcomes for Cape innovation course.

56

00:12:11.640 --> 00:12:13.860

Famis Florida2: These are somewhat.

57

00:12:16.710 --> 00:12:27.690

Famis Florida2: Like less common and districts, I know there are still a few districts that do offer innovation courses, this is in here, for your reference.

58

00:12:29.070 --> 00:12:42.180

Famis Florida2: So when to report an outcome certifications are reported in the year that they were earned reporting linked to prior your course is allowed for certain.

59

00:12:44.100 --> 00:12:57.300

Famis Florida2: certifications if there is a gap between when the student completes the course and when they set for the industry certification exam districts can report prior year data using.

60

00:12:58.350 --> 00:13:04.410

Famis Florida2: The school year of submission and the school year that the course was taken.

61

00:13:09.840 --> 00:13:18.930

Famis Florida2: For reporting industry certification, you probably all know by now that you have to report the earned date with that industry certification.

62

00:13:19.500 --> 00:13:30.990

Famis Florida2: And if the certification requires multiple exams, then you report, the date on which the last exam was taken that qualifies the student for that certification.

63

00:13:33.930 --> 00:13:50.970

Famis Florida2: Reporting outcomes when work experiences required an industry certification identifier may be reported as an attempt, when all exams have been taken and any requirements, other than work experience are satisfied.

64

00:13:53.550 --> 00:14:03.210

Famis Florida2: Students should not be reported with an F for two consecutive years if the only certification requirement is outstanding work experience.

65

00:14:06.690 --> 00:14:14.520

Famis Florida2: So some special notes about Cape digital tool certificates, you cannot use prior year reporting for katie digital tool certificates.

66

00:14:16.170 --> 00:14:31.440

Famis Florida2: students who earn additional ftp membership for a Cape digital tool certificate may not use the previously funded exam to satisfy the requirements for any other industry certification or certificate so.

67

00:14:32.220 --> 00:14:46.110

Famis Florida2: I know we have some digital tools and the Microsoft certification exams like Microsoft Office word excel PowerPoint which are also required for some Microsoft certifications.

68

00:14:47.190 --> 00:14:49.710

Famis Florida2: You can't report a student.

69

00:14:50.850 --> 00:14:58.830

Famis Florida2: Who passed Microsoft excel as a digital tool certificate and then apply it to that industry certification.

70

00:15:02.610 --> 00:15:05.700

Famis Florida2: So some FP FP funding issues.

71

00:15:07.560 --> 00:15:16.080

Famis Florida2: The FP FP and calculation includes additional membership for certifications and certificates earned on the Cape list.

72

00:15:18.330 --> 00:15:32.490

Famis Florida2: You have to see appendix Z for information on which certification codes are eligible for FP FP funding and calculation is completed by the Department of Education based on recorded data elements.

73

00:15:36.030 --> 00:15:48.750

Famis Florida2: Allocation expect and expenditure requirements for funds received from this calculation each district is required to allocate at least 80% of the funds provided for industry certification exams.

74

00:15:49.590 --> 00:16:00.900

Famis Florida2: In accordance with the law to the program that generated those funds, the allocation may not be used to supplant funds provided for basic operation on the Program.

75

00:16:05.040 --> 00:16:14.100

Famis Florida2: teacher bonuses districts are required to pay teacher bonuses to each classroom teacher who provided direct instruction for that certification.

76

00:16:15.990 --> 00:16:22.110

Famis Florida2: So bonuses are awarded to teachers who are employed by the district in the year in which the F T.

77

00:16:24.060 --> 00:16:42.900

Famis Florida2: is included in the calculations so teachers who had their students earn industry certifications in this past school year that just ended will receive that bonus next school year and it's up to the districts, to determine which teachers qualify for the bonus under statute.

78

00:16:44.580 --> 00:16:50.670

Famis Florida2: And these are the required teacher bonuses based upon funding wait.

79

00:16:53.730 --> 00:16:55.860

Famis Florida2: Teachers give me, you know.

80

00:16:56.910 --> 00:17:09.570

Famis Florida2: A district made it to decide that there are two teachers that deserve the bonus for particular industry certification being earned they don't split the bonus they each got the same bonus.

81

00:17:14.160 --> 00:17:28.800

Famis Florida2: teacher bonus information must be recorded and the staff information system that's additional compensation type element code for its recorded on surveys to in three for scheduled bonuses.

82

00:17:29.460 --> 00:17:39.150

Famis Florida2: additional compensation type Val value element code for followed by seven digit bonus figure, which includes two decimal places.

83

00:17:40.410 --> 00:17:47.400

Famis Florida2: So, for example, 450 would be entered as 4004 or 5000.

84

00:17:50.520 --> 00:18:02.190

Famis Florida2: So test administration procedures industry certifications that are not administered in accordance with the role cannot be reported for funding for any other purposes.

85

00:18:02.460 --> 00:18:18.960

Famis Florida2: And these requirements include the exam must have not must not have been in the Mr borland three times in a school year, and there has to be a minimum of 20 days required between test administration's.

86

00:18:22.410 --> 00:18:26.220

Famis Florida2: So now we'll go over some important data reports.

87

00:18:30.720 --> 00:18:43.860

Famis Florida2: Data reports on funding calculation at the student level, we have the f7 1297 which is created with the FP FP calculations.

88

00:18:44.820 --> 00:18:57.270

Famis Florida2: That includes the district of instruction survey number school of instruction the student information, the industry certification ID the year earned the grade level course funding way districts.

89

00:18:57.750 --> 00:19:08.310

Famis Florida2: are rated F T kept F T, if applicable it's only for digital is only for middle school students kept F T and paraded empty.

90

00:19:11.460 --> 00:19:14.700

Famis Florida2: So some notes on F 712 97.

91

00:19:15.840 --> 00:19:29.430

Famis Florida2: districts prorated F T if the indicator if indicator if the student was subject to a probation because the same certification was recorded for funding and more than one district in the same year.

92

00:19:30.720 --> 00:19:43.950

Famis Florida2: One one reported by just one district two and reported by two districts three or more, you know if the student has been in three different districts and all three districts are trying to claim the same certification for that one student.

93

00:19:45.150 --> 00:20:02.310

Famis Florida2: The CAP F T indicator is you know for K through eight students they're capped at a point one F T per school year you, you would see a why for us in this column if the student was subject to.

94

00:20:03.510 --> 00:20:05.010

Famis Florida2: That funding CAP.

95

00:20:06.060 --> 00:20:19.980

Famis Florida2: And then, a prorated F to evaluate if the students level funding CAP was applied calculated by multiplying the estimated proportional share of funding weight by 0.1 F T.

96

00:20:22.890 --> 00:20:40.680

Famis Florida2: So the F 714 15 is an on demand report and it has the same exact programming as F 712 97, but you must have reported data on industry certification format, so that you can run this report so if you get your data in.

97

00:20:41.250 --> 00:20:53.370

Famis Florida2: By load day you should be able to run the F 714 15 and kind of get an idea of what your funding will be like before the f7 1297 is released.

98

00:20:56.040 --> 00:21:11.880

Famis Florida2: Now I have very exciting news about a new report that is now available, I did send out I passed around a handout for you, with various Cape reports so on the front side is.

99

00:21:14.730 --> 00:21:37.740

Famis Florida2: You know, some reports on Cape academies and career and professional Members keep academy membership on the back side and have the student level funding report so that F 712 97 and the F 714 15 that I just talked about the brand new is this F 715 35.

100

00:21:38.760 --> 00:21:48.930

Famis Florida2: So this is an on demand report that you can use to check for industry certifications that have been reported by your district, but are not being funded.

101

00:21:50.160 --> 00:22:04.140

Famis Florida2: And so, in order to make use of this report, you need to submit your data by the load date and then you can use this report to determine if updates to registered career theory courses.

102

00:22:04.950 --> 00:22:18.090

Famis Florida2: need to be made and, if so, those can be made by your your CTE director and their staff during that third and final career themed course window, which is July 15 through August time.

103

00:22:19.110 --> 00:22:24.390

Famis Florida2: So this report is really neat because I mean includes.

104

00:22:25.410 --> 00:22:36.930

Famis Florida2: You know the student information, the school the CERT idea that you know about what the certification is and the funding way and what course that's being offered in and then at the end at the.

105

00:22:37.260 --> 00:22:42.750

Famis Florida2: All the way to the right, you have some columns that flag is this course on Appendix FF.

106

00:22:43.380 --> 00:22:57.090

Famis Florida2: is as far as on Appendix FF with the certification was the certification funded in a prior year if this was funded in a prior year and what district, and it funded in a prior year and what year, so this is very useful the.

107

00:22:57.570 --> 00:23:03.000

Famis Florida2: Two districts, because then you can identify right away, which are the certifications that.

108

00:23:03.240 --> 00:23:12.900

Famis Florida2: You know, maybe they're not being funded because they're not on Appendix FF so you can give this to your CTE director and say we need to you know if these.

109

00:23:13.050 --> 00:23:19.290

Famis Florida2: are eligible to be registered as courier theme courses, we need to go ahead and get them registered, so that we can get funded for them.

110

00:23:20.910 --> 00:23:23.970

Famis Florida2: So should help reduce some headaches is the idea.

111

00:23:25.320 --> 00:23:30.810

Famis Florida2: This is the Cape data reports and out that I asked around.

112

00:23:34.110 --> 00:23:40.980

Famis Florida2: So now a very, very important question that we get a lot from time to time, is why wasn't this funded.

113

00:23:42.120 --> 00:23:54.090

Famis Florida2: We have six top reasons why industry certifications don't get funded number one is the industry certification record is created locally, but not sent to eat.

114

00:23:54.810 --> 00:24:10.590

Famis Florida2: So if you're not sure you need to request the old file the F 714 33 oh and verify that it contains the number of records that you expect check for specific schools certifications and students.

115

00:24:13.560 --> 00:24:25.800

Famis Florida2: Number two industry certification record received reject errors, causing the record to not load to eat, so you should always check the initial batch for edit.

116

00:24:26.520 --> 00:24:38.280

Famis Florida2: listing following each file submission that edit listing is system generated automatically after each submission, you do not need to request the record.

117

00:24:42.450 --> 00:24:55.830

Famis Florida2: Industry certification and outcome on the industry certification record does not have a passing outcome in order for it to be funded, the outcome must be P for pass.

118

00:24:58.800 --> 00:25:15.810

Famis Florida2: number for the industry certification identifier on the industry certification record has an identifier, that is not funding eligible, we do have some certification codes for certifications that might be eligible for parkinson's or.

119

00:25:16.410 --> 00:25:25.770

Famis Florida2: You know, possibly the K post secondary list but they're not on the Cape K 12 industry certification funding list.

120

00:25:27.330 --> 00:25:44.640

Famis Florida2: So you should check your P K 12 appendix Z appendix year should be same the same as the data reporting year and the column additional F T eligible under this section must be yes in order to be eligible for funding.

121

00:25:46.710 --> 00:25:53.280

Famis Florida2: As the certification was earned and dual enrollment with the district post secondary institution for fcs.

122

00:25:53.640 --> 00:26:03.510

Famis Florida2: check the post secondary industry certification funding list and the column eligible for a district performance incentive funds must be yes in order to.

123

00:26:03.840 --> 00:26:14.070

Famis Florida2: be eligible for funding for districts, or the column eligible for college performance incentive funds must be yes, if the student is doing role that our college.

124

00:26:17.910 --> 00:26:27.150

Famis Florida2: number five the industry certification record does not match the district's career themed course registration check appendix FF.

125

00:26:28.140 --> 00:26:41.970

Famis Florida2: All three fields, the school number of the course number of the industry certification number must match appendix FF to be eligible for funding, and that is why this new report that I told you about so important.

126

00:26:45.420 --> 00:26:54.540

Famis Florida2: And number six the industry certification identifier was funded previously for the student student cannot be funded twice for the same certification.

127

00:26:55.950 --> 00:27:08.220

Famis Florida2: The historical f7 1297 reports contain all the information that you wouldn't need to see when or if a student was previously funded so at the district level.

128

00:27:08.490 --> 00:27:25.560

Famis Florida2: You most likely have a way to accrue all those f7 1297 reports over the years, so you can check locally that way for you could also see that student turn up on this new series report that I was just talking about.

129

00:27:27.210 --> 00:27:43.980

Famis Florida2: We do recommend that you save all your f7 1297 reports so that you can search those to see if a student was funded for a certain the previous year if the student was funded previously, they cannot be funded again, even if you report it everything correctly.

130

00:27:46.980 --> 00:27:55.440

Famis Florida2: We recommend that you download the F 712 97 report as soon as possible because it's only available for a limited time once it is posted.

131

00:27:58.440 --> 00:28:18.060

Famis Florida2: So my division recommends that you work with your district CTE leadership on reviewing rejected records provide your CTE director with information on rejected records and what annoys you which edit was an issue also take them the f7.

132

00:28:19.200 --> 00:28:24.240

Famis Florida2: Report and the f7 well F 714 32 report.

133

00:28:26.160 --> 00:28:37.620

Famis Florida2: As of survey fine you'll also be able to run that at 715 35 report that shows certifications not funded and you can bring that to your CT director as well.

134

00:28:40.620 --> 00:28:56.970

Famis Florida2: Here are some best practices for making sure that your industry certifications get funded in the FP FP number one make sure that you load your certification data by July 23 2021, which is the due date for that format.

135

00:28:58.200 --> 00:29:04.290

Famis Florida2: run the F 714 15 report to validate funding eligibility records.

136

00:29:05.730 --> 00:29:13.500

Famis Florida2: run the new F 715 35 report to see which certifications were reported, but are not being funded.

137

00:29:15.510 --> 00:29:26.070

Famis Florida2: share the reports with your CTE director who will be able to review and identify any discrepancies with career themed course registration and industry certification records.

138

00:29:28.080 --> 00:29:37.020

Famis Florida2: From July 15 through August 10 the district's can update the career themed course registration for appendix FF.

139

00:29:38.430 --> 00:29:43.860

Famis Florida2: and submit your your edits by the survey five deadline which is October 31.

140

00:29:47.010 --> 00:29:51.870

Famis Florida2: i've included some resources and this presentation, for you.

141

00:29:54.300 --> 00:30:06.420

Famis Florida2: Here is my contact information, as well as some contacts for the Department of Education, this time i'm happy to take any questions you may have.

142

00:30:18.660 --> 00:30:28.230

Famis Florida2: We are updating or movie or something like favorites and I know that I have something to update inside you that, like it before everything is submitted.

143

00:30:29.490 --> 00:30:37.200

Famis Florida2: So when we get around that accent and 1415 days that reflect the changes that I made all those changes not be reflected in total.

144

00:30:40.560 --> 00:30:41.310

Famis Florida2: A question.

145

00:30:45.870 --> 00:30:46.950

Famis Florida2: So I was just wondering.

146

00:30:50.070 --> 00:30:57.540

Famis Florida2: I think you should be able to yes, if not send me an email and we'll look into it.

147

00:31:22.470 --> 00:31:24.570

Famis Florida2: Okay, so.

148

00:31:28.770 --> 00:31:42.750

Famis Florida2: We have certifications ernie do all my courses with them, can we report the certifications as long as it's on the seminary paint list and.

149

00:31:43.800 --> 00:31:54.750

Famis Florida2: It is the difference between her secondary secondary that districts in House ever before, because all of her secondary list as long as a secondary institutions.

150

00:31:58.830 --> 00:32:08.880

Famis Florida2: Okay, so that student is occasional student right yes Okay, and the industry certification that they're earning is on both lists.

151

00:32:10.110 --> 00:32:26.460

Famis Florida2: check on see Okay, so you can report that you would report it because they are not because there are private school they're not eligible for the tape post secondary industry certification there.

152

00:32:27.600 --> 00:32:29.520

Famis Florida2: yeah funding.

153

00:32:30.540 --> 00:32:31.710

Famis Florida2: We didn't report it.

154

00:32:34.530 --> 00:32:45.840

Famis Florida2: And we are now, of course, that I was thinking about registering either the moment they register the dollar course attached to that certification.

155

00:32:46.920 --> 00:32:50.700

Famis Florida2: see that that will take care of that situation.

156

00:32:52.560 --> 00:33:00.180

Famis Florida2: Right, yes, yes, so we also have another articulation of St john's for cna.

157

00:33:01.230 --> 00:33:02.100

Famis Florida2: And i'm not sure.

158

00:33:03.630 --> 00:33:05.970

Famis Florida2: exactly as well.

159

00:33:08.190 --> 00:33:09.690

Famis Florida2: If we're allowed to record a or.

160

00:33:10.920 --> 00:33:12.960

Famis Florida2: b when you see you see john's.

161

00:33:13.980 --> 00:33:16.440

Famis Florida2: website Okay, the state college.

162

00:33:19.080 --> 00:33:33.930

Famis Florida2: So you can, if it's on both lists, you can go ahead and record it, but if it is on both lists it's going to get funded through post secondary St Johns river river state college.

163

00:33:35.370 --> 00:33:50.430

Famis Florida2: Public College and the Florida college system or so, they would be reporting that and likely, you would not receive funding through the ISP yes and we've never registered anything attached to that certification.

164

00:33:51.450 --> 00:33:57.990

Famis Florida2: And don't expect additional funding for that, but i'm just wondering if we should have them.

165

00:33:59.460 --> 00:34:14.730

Famis Florida2: Because if it's on our list that's on the secondary list we basically furniture a recording right like you're saying there any way right right EMEA, you could still record it, but we have a check in place.

166

00:34:16.980 --> 00:34:19.650

Famis Florida2: And then, for the new 715 30.

167

00:34:20.910 --> 00:34:35.250

Famis Florida2: get it checked to make sure that you don't include records that you're saying, or possibly not and if they were attached to previous your courses that are hurting courses.

168

00:34:36.330 --> 00:34:41.190

Famis Florida2: are going to look for that, first, before you give us that feedback and says, these are done.

169

00:34:42.480 --> 00:34:59.670

Famis Florida2: Do you mean if the certification, what is the certification was when did previously it's just if the certification in attached to a previously taken course that was registered as a career the horse in that manner.

170

00:35:02.970 --> 00:35:03.210

Famis Florida2: But.

171

00:35:04.590 --> 00:35:16.050

Famis Florida2: We have you know they just because they are this year will attach it to previous year's courses, as long as that force they didn't have anything that applied here.

172

00:35:16.710 --> 00:35:20.580

Famis Florida2: That portions of the course of that year, so the only reason.

173

00:35:21.510 --> 00:35:32.310

Famis Florida2: Why a student is able to be funded through prior year recording would be if they have if they have you know the taken we've taken a course.

174

00:35:32.700 --> 00:35:49.110

Famis Florida2: Say they're in 11th grade and, for some reason, either the certification that agency may have like a minimum age requirement and they don't reach that age of tell the next year, that is a circumstance, in which prior year reporting can be used.

175

00:35:50.250 --> 00:36:06.510

Famis Florida2: Do eat we've had discussions about limiting what certifications prior year reporting, maybe, maybe you know blocked blocks from we have not made those edits yeah.

176

00:36:29.160 --> 00:36:30.540

Famis Florida2: Thank you so much.
