FLORIDA SCHOOLS SAFETY PORTAL & SOCIAL MEDIA MONITORING

FAMIS Summer Conference 2022

Presenter: Shawna Reid

July 11, 2022

Agenda

- Introduction
- Social Media Monitoring
 - Keywords and Geolocation
 - Notifications
 - Statistics
 - New Information
- Florida Schools Safety Portal
 - Status
 - Authorizations
 - Enhancements

Introduction

Required by 1001.212(6)-(9), Florida Statutes

- Coordinate with the Department of Law Enforcement to provide a centralized integrated data repository and data analytics resources.
- Improve access to timely, complete and accurate information.
- Integrate data from:
 - Social Media
 - Department of Children and Families
 - Department of Law Enforcement
 - Department of Juvenile Justice, and
 - Local law enforcement
- Available to threat assessment teams for schools across the state of Florida to improve access to timely, complete and accurate information by authorizing school threat assessment teams to swiftly identify, assess and provide intervention services for individuals whose behavior may pose a threat to themselves or others.

FLORIDA DEPARTMENT OF
EDUCATION
fldoe.org

Social Media Monitoring (SMM) Tool

- Allows school threat assessment teams to identify, assess and provide intervention services for individuals whose behavior may pose a threat to themselves or others
- Report suspicious activities to the proper authorities within the school district based on their Threat Assessment Plan

Social Media Monitoring Tool

Real-Time Monitoring

Keyword Searching

Dashboard Monitoring

Geo Fencing

Sites Monitored

Multi-Languages

Secure System

Compiles Data

Social Media Monitoring Tool

Features

- Real-time monitoring
- Customizable dashboards
- Unlimited keyword searches
- Geo-fencing
- Notifications configured at the state, district and school level
- Constantly expanding sites monitored

Examples of Social Media Sites Monitored

- Twitter
- Facebook
- Instagram
- YouTube
- Reddit
- Flickr
- Google+
- Pinterest

Other Examples Monitored

- Major news sites and local news
- Blogs: Millions
- Forums: Hundreds of thousands
- Customer review sites
- Regional and miscellaneous networks

Keywords & Geolocation

System includes keywords for the five topic types:

- Gun
- Bomb
- Bullying
- Mental Health
- General

System includes existing school specific data:

- When posts target a specific school, notifications are sent to that District/School.
- Geo-fencing/geolocation data is provided by a social media platform to identify posts happening on or near the school.

Uses geo-tags defined at multiple levels depending on district population density

Identity-Based Monitoring

Status	Keyword	Location	Identity
<p>Captured</p> 	<p>Captured only if the name of the entity is named in the threat: "I'm going to hurt someone at Westfield High."</p>	<p>Captured only if the threat is made when the individual is within the geo-fenced location or near the school.</p>	<p>Individual's handle is logged if threat is made on social media within defined geo-fence. Threats are then tracked from any location.</p>
<p>Not Captured</p> 	<p>Not captured if no keywords show it is a threat against a specific school.</p>	<p>Not captured if threat is made from individual's home.</p>	

When threats happen outside of the location and the profile is captured, then regardless of location all social chatter from this identity will be captured.

Notifications

District Notifications

Districts provide Threat Assessment Team contact information

Vendor Providing Monitoring Assistance

E-mail

Notifications sent to the district based on Threat Assessment Plan

State Notifications

Social Media Monitoring data compiled for the state

Secure API

Subsequently stored for the Florida Schools Safety Portal

Social Media Monitoring Statistics

Social Media Monitoring Alerts Summary

Data Range: February 26, 2021 through February 25, 2022

Total Alerts by Category

Total Districts Participating: **43** Total District/School Alerts: **151,386**

Category	Total Reviewed	Total Escalated
a) Bomb	18,636	2
b) Bullying	11,497	18
c) General Violence	68,827	22
d) Gun	32,283	28
e) Mental Health	20,143	19

District Name	# of Mentions Reviewed	# of Mentions Escalated	District Name	# of Mentions Reviewed	# of Mentions Escalated
Baker	170		Leon	7,775	4
Bay	2,597		Liberty	31	1
Bradford	386		Madison	594	
Brevard	10,163	7	Manatee	322	
Charlotte	1,391		Monroe	870	
Citrus	1,145		Nassau	219	
Clay	1,182	1	Okeechobee	732	1
Columbia	703		Orange	28,556	15
Desoto	236		Osceola	3,797	3
Duval	13,333	8	Pasco	4,600	3
Flagler	569	1	Polk	7,105	3
FLVS	1,400	2	Putnam	301	
Franklin	121		Seminole	3,952	2
FSDB	1,367		St Johns	2,808	1
Gadsden	191		St Lucie	3,536	
Hamilton	108		Sumter	196	
Hernando	3,929	3	Suwannee	72	
Hillsborough	31,460	16	UF Lab School	88	
Holmes	162		Volusia	5,094	10
Jefferson	385		Washington	212	
Lafayette	366		Total	151,386	89
Lake	1,634	2			
Lee	7,528	6			

Notifications

NEW!

Two analysts were hired to review each social media mention that was flagged as an alert.

The FDOE worked with the SMM tool vendor to provide additional assistance with the monitoring of alerts. This was to assist districts by escalating items based on Tiers (indicating alert urgency). Mentions were deemed threats and escalated using the following criteria:

Tier I (Critical)

Categories: Gun, Bomb, & General Violence

Posts pertaining to guns, bombs, weapons, knives, physical assault, planning violent activities that could cause harm to others or themselves, threats, etc. will constitute mentions that fall into Tier I.

Tier II (Urgent)

Categories: Bullying & Mental Health

Posts pertaining to harassment, bullying, depression, suicide, constant anger, living in fear, teasing, etc. will constitute mentions that fall into Tier II.

Florida Schools Safety Portal (FSSP)

- The Florida Schools Safety Portal (FSSP) enacts the Marjory Stoneman Douglas Commission's recommendation to improve access to timely, complete and accurate information by authorizing school threat assessment teams to swiftly identify, assess and provide intervention services for individuals whose behavior may pose a threat to themselves or others.
- The FSSP will not be used to label students as potential threats, but rather is a tool to evaluate the seriousness of reported or identified threats and to assist in getting professional help when necessary.

Florida Schools Safety Portal

Purpose of the system:

- Promote school safety.
- Enhance coordination between state/local law enforcement and education entities.
- Prevent gun violence.

Authorized users will access one system that will query from multiple data sources:

- School Environmental Safety Incident Reporting (SESIR) Data
- FortifyFL (Suspicious Activity Reporting) Data
- Social Media Monitoring Data
- Florida Department of Children and Families (DCF) Baker Act Data
- Florida Department of Law Enforcement (FDLE) System Links

DCF Baker Act Data

Florida Schools Safety Portal

- The Florida Schools Safety Portal provides real-time access to information to quickly avert a reported or identified threat.
- Only users already authorized to access criminal justice data will be able to access the information via the portal.
- Information is temporarily displayed to authorized users for only 30 minutes and a screen timeout will immediately log inactive users out of the system.
- Authorized users will not be able to download or store information. The portal does not store information about students' race, religion, disability or sexual orientation.
- Access to data is governed by applicable state and federal privacy laws.
- Threat assessment team members must undergo complete training and sign user agreements to obtain access to data.

Florida Schools Safety Portal Status

User Authorization Process:

- District Agreement
- Individual Agreement
- Security Awareness Training
- Role Alignment – Single Sign-On vs. Individual Form

▪ User Authorization Tips:

- Agents review authorization requests daily.
- Complete agreements in its entirety.
- Agreement changes must be reviewed/approved by our General Counsel.
- Information technology (IT) staff who serve as FSSP administrators should not access the portal unless they are threat assessment team members.

Florida Schools Safety Portal Status

District Agreement

Must be completed by the Superintendent.

Individual Agreement

Must be completed by the Threat Assessment Team Member.

Security Awareness

Security Awareness Training required annually.

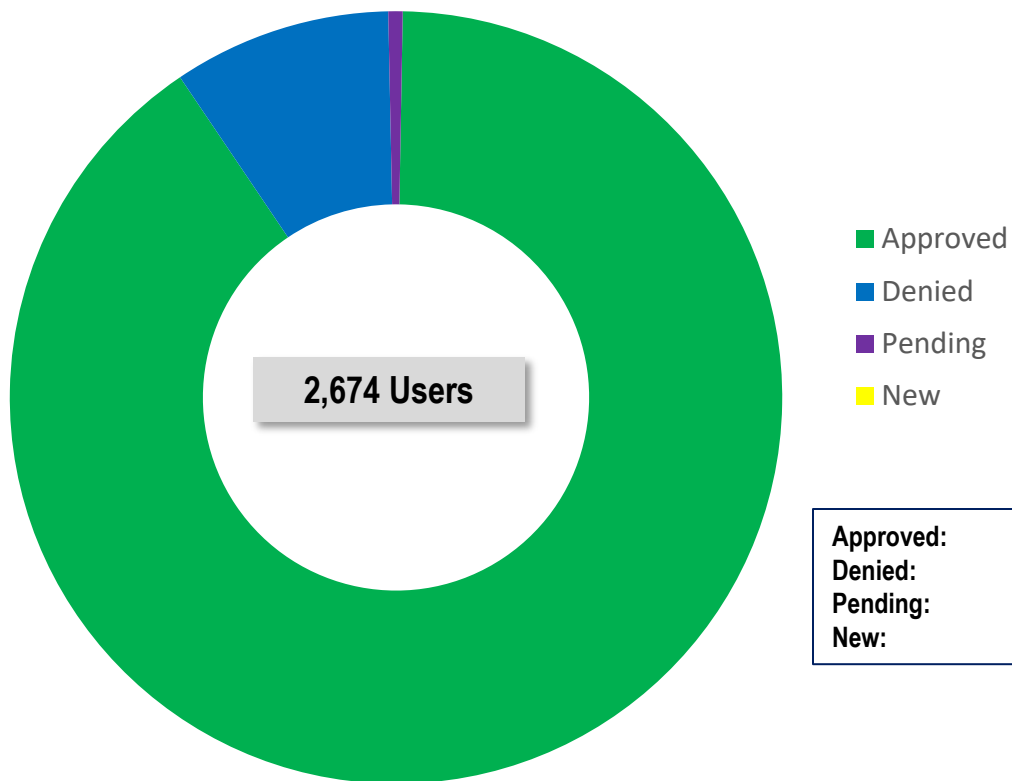

Single Sign-On Roles

Application Access & User Roles must be granted by Local SSO Admins.

Florida Schools Safety Portal Enhancements

- **User Authorization Process Enhancements:**
 - Streamlining the authorization and access process.
 - Reviewing and refining the security awareness training process.
 - Transitioning from manual agreements to electronic forms.
 - Providing demo search capabilities for users.
 - Making approval status/progress clearly available.
 - Improving the application renewal process.
 - Programmatically validating form submissions gaps.

- Future Enhancement: Adding data sources and connectors.

System Disclaimer

Disclaimer Statement Used for the Florida Schools Safety Portal: ^

The Florida Schools Safety Portal (FSSP) has been established in accordance with Executive Order Number 19-45 and Section 1001.212, Florida Statutes pursuant to Florida SB 7026 (the "Safe Schools Act"), as may be amended from time to time.

FSSP permits access to Florida state agency data bases containing certain sensitive or confidential information, the access or disclosure of which may be restricted by federal and/or state law. All the data accessed in this system is owned by the respective state agency sources of the data.

AUTHORIZED USERS. Access to FSSP is only permitted in compliance with state and federal law, pursuant to the terms of each Agency's Data Use Agreements, and only by those persons who are Authorized Users who have completed appropriate security training and signed a User Agreement to access information contained within FSSP.

I hereby understand that as an Authorized User, I have been granted access to only certain secure restricted information as is necessary for me to perform my job duties and responsibilities, as defined by my role pursuant to the Safe Schools Act and in accordance with the User Agreement.

CONSENT. I understand that my use of and access to information through FSSP, authorized or unauthorized, may be monitored, recorded and subject to audit, and my ▼

Cybersecurity

- Strict data governance and security measures safeguard the protection of confidential education, health and law enforcement records, and ensures compliance with applicable state and federal privacy requirements in accordance with rules adopted by the respective source agencies.
- Every effort has been made to put proper preventative measures in place including security protocols and access controls to monitor and ensure data is protected.
- Web based training is required that includes topics on FSSP data security.
- Role based authentication is implemented so users are only authorized access to specific data.
- A disclaimer is displayed that must be accepted prior to final authentication into the FSSP dashboard.
