# Visit the Migration Center: migrationcenter.skyward.com

The screenshot displays the Skyward Migration Center website. At the top, the Skyward logo is on the left, and the text "Migration Center" is on the right. Below this is a navigation bar with tabs for "Introduction", "Qmlativ Overview", "Migration Readiness", "Implementation", and "Organization". A banner image shows a diverse group of people. The main content area features a heading "We're Glad You're Here" followed by introductory text. Below this is a progress indicator showing a green checkmark and the text "You are eligible to migrate to Qmlativ" with a "Learn More" link. A list of steps is shown: Step 1 "How do we begin?" (3/4 Reviewed) and Step 2 "What considerations/changes can we anticipate?" (0/19 Not Started). To the right, there is a "Resources" section with a "Welcome Video" and an "FAQ" section.

## *What do we do next?*

*The final step is to contact your sales representative to continue the implementation phase.*

# S2Q Project Timeline Example

## Pre-Migration

- Complete Migration Readiness
- Complete paperwork
- Project Kick-Off
- Identify District Project Support Team
- Determination best timeline for live migration

## Phase I

- Installation of databases
- Initial data review by Skyward's data migration team
- Develop an internal communication and roll-out plan
- Enroll users in Qmlativ Professional Development Center (PDC) online self-paced training courses
- Review of migration task lists

## Phase II

- SMS Data migrated into Qmlativ training database
- Begin Qmlativ Professional Development Center (PDC) online self-paced training course
- Complete tasks outlined in (PDC) course trainings (security groups, reports, configurations). These items will be imported into the Production database at time of Go-live
- Complete data validation as outlined in self-paced training course(s)

## Phase III

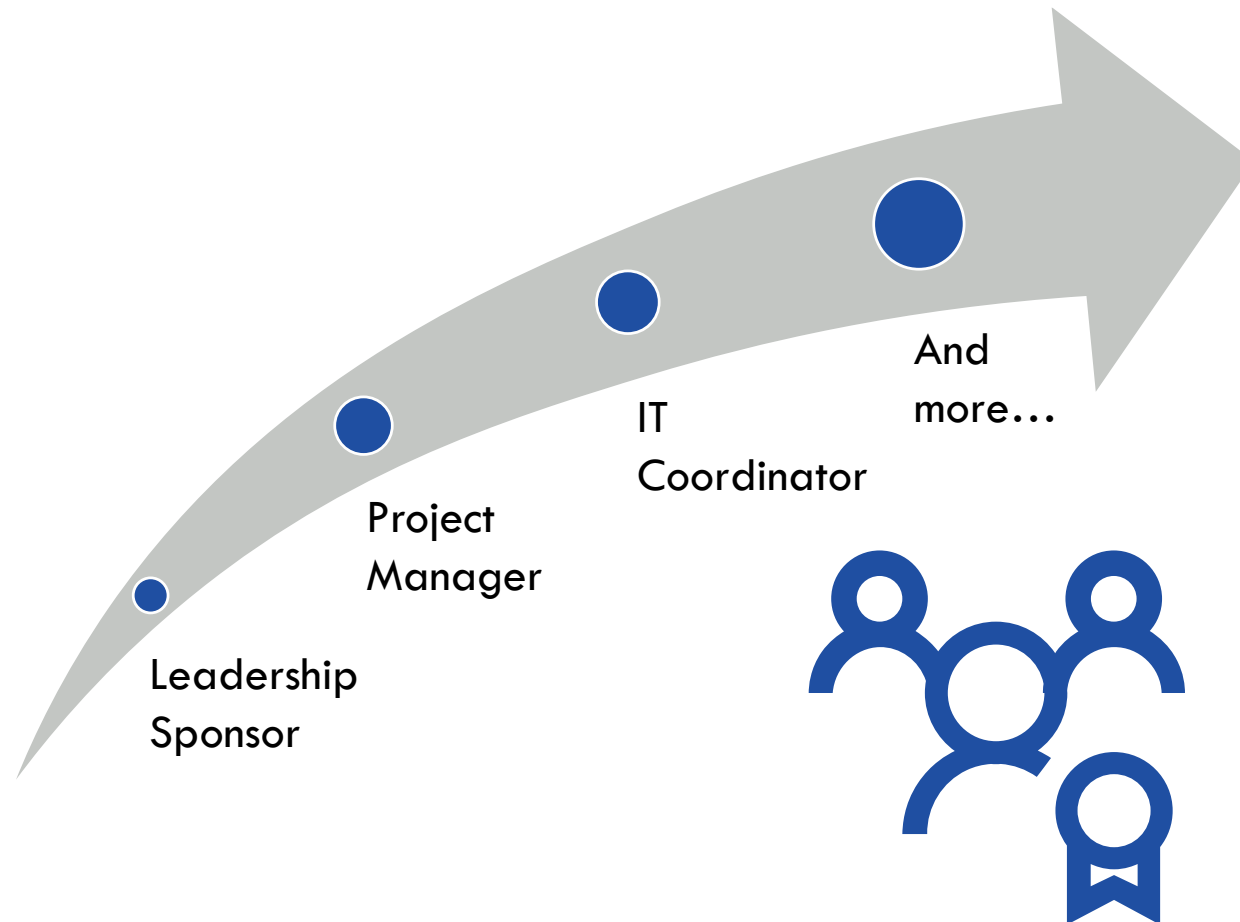

- System inactive for 5 days while migration takes place
- SMS 2.0 data will be available for 3 months after migration
- Complete Final Migration Task List

## Post Migration

- Data verification
- Complete Post Go-Live Task List (Import Configurations, security, reports, etc.)
- Pass 2 migration (attachments)
