---

The MIS directors (SDCCMIS) conference is in Ocala on April 25-27 this year. We are seeking presentations by districts on matters related to data collection, analysis, reporting, etc (30 minute or one hour time slots). Many districts have come up with ways to deal with the problems we all face, regardless of what products we use for our data systems. Sometimes a panel discussion or roundtable is useful in looking at district needs. If you or your staff members would like to submit a presentation, or a request for a panel discussion on a specific problem, please let me know. Here is the URL for the organization web site:

<http://sdccmis.brevard.k12.fl.us/index.html>

I know that some of you are not members of the organization, but let me invite you to be part of the conference. There is much to be gained in sharing and learning with your colleagues. Thanks for your consideration to this request, and I hope to see many of you in April.
