

Class Size Terminology

Processing

Class Size Maximum	Constitutional limits on class size for core curriculum courses.
Survey	Snapshot of school district student and staff information at scheduled windows during the reporting year.
Trial Run	Preliminary data processing run of Class Size information for district data review weekly
Penalty	Refers to financial repercussions levied on schools or districts for exceeding established class size limits.
Compliance	Compliance with class size reduction requirements.
Compliance Plan	Requires school districts and charter schools that have not complied with class size requirements to submit a plan to the Commissioner.

Data Collection

Student Course	Includes information collected by school districts related to student courses, schedule and FTE.
Teacher Course	Includes information collected by school districts related to teacher courses, instructor information, and schedule.
FISH	The physical conditions and capacity of school facilities across the state of Florida.
MSID	Provides accurate identification on each Florida public school in the state.
CCD	Official listing and classification of all course codes used by the FDOE for PK12 education.
Core Course	Includes the physical conditions and capacity of school facilities across the state of Florida.

Reports

All FISH	This report includes all classroom spaces (FISH numbers) submitted by schools. This report includes FISH numbers for all schools, including traditional, charter, and choice schools.
Traditional Over Cap	The "Trad Overcap" report lists traditional (non-charter, non-choice) classrooms that exceed class size limits.
Charter Average	This report provides average class sizes for charter schools, calculated at the school level. The report includes data by grade group (PK-3, 4-8, 9-12) and identifies schools that exceed class size limits based on average class size.
School Choice Average	This report covers school choice programs and calculates average class size at the school level. The report includes data by grade group (PK-3, 4-8, 9-12) and identifies schools that exceed class size limits based on average class size.
Unduplicated	Represents data that is non-repeated and one-of-a-kind which is essentially considered unique.
Adjusted	Making corrections in data analysis to account for variations.
